PREAMBLE:

The University Grants Commission, New Delhi, has directed all Universities in the country to implement the Choice based Credit system (CBCS, semester scheme) in both under –and post-graduate programme and has issued a series of guidelines with regard to this. The higher Educational Council, Government of Karnataka has considered the implementation of Choice Based Credit System. The Choice Based Credit System enables the degrees of Mangalore University to be on par with the global standards.

The Post Graduate Board of Studies in Commerce has prepared the revised Syllabus for M.Com (Choice Based Credit System) since 2016 and revised the syllabus on 31.08.2019 as per the guidelines suggested by Mangalore University and University Grants Commission, New Delhi. The revised syllabus has a course pattern which includes Hard Core, Soft Core and open elective courses with 80+6 credits (*Open elective six credits not included for CGPA Total Hard core credits 44 and total soft core credits 36) for the entire Programme.

ELIGIBILITY FOR ADMISSION

B.Com. BBM or B.B.A. Degree from any recognized University with 45% marks in optional papers (40% for SC/ST/Category-I candidates)

COURSE OBJECTIVES:

1. Adoption of value based and student centric approach in imparting curricular and extracurricular activities.
2. To comprehend advanced theoretical inputs in strategic management, Human resources management, Entrepreneurial development, Labour legislation.
3. To enhance practical skills through corporate accounting, costing methods and management accounting.
4. To encompass the horizon of knowledge in the emerging field of commerce, e-commerce, marketing management, investment finance, micro-finance, retail management, security analysis and portfolio management, Human relations management.
5. To enrich the quality of research designing, research applications and research outcomes.
6. To impart and motivate leadership and entrepreneurial skills.
7. To develop qualitative analysis to promote business decisions and business environments.
8. To encourage students to organize commerce fests, conferences and involve them for

industrial visits, student internship programmes, training and placement which establishes an integrated learning environment.

9. Focus on motivating a socially responsible team of professionals.

PROGRAMME SPECIFIC OUTCOMES:

PSO1: Deliver a value-based commitment in the core areas of business operations and adapt to changing business environments.

PSO2: Be able to apply the fundamental, conceptual and advanced practical knowledge to take effective business decisions and also modelling, designing, implementing and evaluating the computing system in the areas of commerce, trade and industry.

PSO3: Comprehend, analyse and interpret the market gaps in the broad areas of investment finance, human resource management, marketing and the other allied areas.

PSO4: Associate and pursue research in the specialised area of interest.

PSO5: Venture into leadership prospects or entrepreneurial innovations by tapping the market opportunities.

PSO6: Contribute to reduce societal problems by creating awareness among the peer groups, consumer groups and other voluntary groups.

PSO7: Exhibit team spirit, skills and acquaint with learning organization to achieve career goals.

First Semester

CMHT 501 - ACCOUNTING THEORY AND PRACTICE

Learning Objectives:

- To make the students to understand the basic accounting theories, principles and concepts.
- To make the students to understand the concepts of forensic and social accounting.
- To make the students to prepare the final accounts of the company.
- To enable the students to apply various methods of inflation accounting for price level changes.
- To enable the students to prepare the liquidator's statement.

Learning Outcomes: The students will be able to -

- Apply basic principles and concepts of accounting.
- Present the concepts of forensic and social accounting.
- Prepare and demonstrate the final accounts of the company.
- Calculate the price level changes using various methods of inflation accounting.
- Prepare the liquidator's statement.

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Introduction to Accounting: Evolution of Accounting-Accounting as an information system –users of accounting information- Accounting Concepts, and Principles, Accounting theory- classification-methodology in accounting theory, Income concept- Different concepts of income measurement, Assets, Characteristics of Assets-Types of Assets-Objectives of Asset valuation-Asset valuation and income determination models, Nature of liabilities-characteristics-classification of liabilities, Equity-characteristics-theories of equity. **(10Hrs)**

Unit II: Forensic and social Accounting: Meaning of forensic accounting-History-Role- Functional areas- Essentials- Forensic accounting in India, Social Accounting-

Benefits- Scope- Approaches- Ramanathan's proposals for social accounting- Social Benefits- Social Corporate Reporting in India. **(10Hrs)**

Unit III: Final Accounts of Companies: Legal provisions relating to maintenance of annual accounts by corporate entities in India- provisions and computation of managerial remuneration, of reserve rules; preparation of vertical forms of financial statements of corporate entities- Bonus shares- Meaning-Benefits-Accounting treatment. **(10Hrs)**

Unit IV: Accounting for Price Level Changes: Historical accounting–Concepts of Capital Maintenance – Methods of accounting for changing Prices –Current Purchasing Power Accounting (CPP), Current Cost Accounting (CCA)-Reporting the effects of changing prices. **(10Hrs)**

Unit V: Liquidation of Companies: Preparation of Statement of Affairs – Deficiency/Surplus Account – Liquidator's Final Statement of Account-Receiver's Statement of Accounts. **(8 Hrs)**

CMHT 502 - BUSINESS RESEARCH ANALYTICS

Learning Objectives:

- To make the students to understand the basic concepts in business research and data analytics.
- To enable the students to understand the procedure for hypothesis testing.
- To enable the students to apply the various parametric test for hypothesis testing.
- To enable the students to apply the various non-parametric test for hypothesis testing.
- To enable the students to draft the research report.

Learning Outcomes: The students will be able to -

- Design and apply various methods of data collection.
- Construct the hypothesis for research problem.
- Apply the parametric test for hypothesis testing.
- Apply the non- parametric test for hypothesis testing
- Prepare and summarize the research report

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Business research and data analytics--Introduction--approaches--Research Process- Research Design- Review of literature- Sampling Design- Methods of Data Collection. Data analytics- Processing and analysis of data- types of data analytics- **(10Hrs)**

Unit II: Estimation Theory and Hypothesis Testing--Types of Hypothesis--Two Tailed and One tailed test of Hypothesis- Procedure for hypothesis testing- Measurement and Scaling Techniques- Measurement of central tendency **(10Hrs)**

Unit III: Parametric Test-- Introduction to parametric test – Types of Parametric test: t

test-paired t test-Z Test-F-Statistic-Analysis of Variance (ANOVA). **(10Hrs)**

Unit IV: Non-Parametric Test-Introduction-U Test (Wilcoxon-Mean-Whitney Test)-chi square test- Correlation- Regression- Index Numbers (Consumer Price Index)-Use of Computer in Research- (SPSS, Excel, R Studio) **(10Hrs)**

Unit V: Research Report- Introduction - Principles of good research report- Steps in writing Research report- Technical Report- Mechanism of writing a research report. **(8Hrs)**

CMHT 503 - STRATEGIC MANAGEMENT

Learning Objectives

- To make the students to understand the significance of strategic management.
- To enable the students to understand the mission and social responsibility of the organization.
- To make the students to understand the various environmental factors influencing the strategic formulation.
- To enable the students to understand the strategy implementation.
- To enable the students to know the strategic evaluation and control mechanism.

Learning Outcomes: The students will be able to-

- Apply the concepts and technique of strategic management
- Evaluate the strength of organization vision, mission directed towards social responsibility.
- Analyse the internal and external environment of the business
- Develop and implement effective organizational strategies for current Business environment.
- Devise strategic approaches to managing a business successfully in a global context

Pedagogy: This course includes class lectures, assignments, case studies, group discussions, seminars, and applications with examples.

Unit I: Strategy and Strategic Management: Introduction-characteristics of strategic management-elements of strategic management- strategic management process-strategic management models-importance of strategic management-limitation and pitfalls of strategic management- guidelines for effective strategic management. **(10Hrs)**

Unit II: Organization Mission and Social Responsibility: Defining organization mission and Social Responsibility; Business Vision, mission and objectives- guidelines for effective objectives-factors affecting objectives-hierarchy of objectives- classification of objectives- need for explicit mission of organization, fundamental elements of mission, organizational goals and social responsibility of business. **(10 Hrs)**

Unit III: Environmental Analysis and Strategy Formulation – Introduction-characteristics of business environment-environmental analysis; Industrial analysis-competitive analysis: porter's five force model SWOT analysis –value chain analysis-BCG matrix – 7-s frame work-core competence-competitive advantages. Formulation of strategy –developing alternative strategy- types of Strategies -strategic analysis and choice. **(10Hrs)**

Unit IV: Strategy Implementation: Concept –steps in strategy implementation-formulation of SBU strategy-resources allocation – organization structure-strategic leadership-managing strategic change -approaches to strategy implementation. **(10Hrs)**

Unit V: Strategy Evaluation and Emerging Trends: Concept–nature of evaluation and control- -importance of evaluation and control-guidelines for proper evaluation and control. Strategic Entrepreneurship & Strategic Execution, Strategic Control, Corporate Culture, Strategic Leadership Introduction to Sustainable Development and **Sustainability Reporting**. **(8 Hrs)**

CMST 502 - E – COMMERCE AND CYBER LAWS

Learning objectives

- To make the students to understand the evolution and significance of internet in day-to-day business.
- To make the students to know the conceptual framework of E-Commerce and E-CRM
- To make the students to analyse various e-commerce models and its impact on markets.
- To inculcate the students about the process, benefits and risks in the course of E-transactions and security protocol in India.
- To enable the students to understand the Information Technology Act 2000.

Learning Outcomes: The students will be able to -

- Analyse the significance of internet in day-to-day business.
- Adopt the concepts of E-commerce in modern business.
- Evaluate the various e-commerce models in business automation.
- Acquaint with the information on security protocol in India.
- Understand the legal framework of the Information Technology Act 2000.

Pedagogy: This course includes class lectures, assignments, case studies, group discussions, seminars, and applications with examples.

Unit I: Fundamentals of internet – nature – components of Internet – features of internet – importance of Internet – advantages and limitations of Internet-classification of Networks – LAN, WAN, MAN, BAN, CAN, BN. Intranet and its application, Extranet – A business Tool- cloud computing-role of Artificial Intelligence in business **(10Hrs)**

Unit II: E-Commerce and E-CRM – Evolution of E-commerce – E-business and E-commerce -definition- features- Scope -Goals of E-commerce – Process of E-commerce-Parties to E-commerce transactions-E-business strategies-Advantages and disadvantages of E-commerce – Critical success factors of E-commerce. Electronic Customer Relationship Management – concept of CRM- Areas of CRM- Electronic

CRM – Need for E-CRM- E-CRM strategies- From CRM to E-CRM-Trends in Electronic CRM in India **(10Hrs)**

Unit III: Electronic markets and E-payments—introduction-Online shopping v/s Online purchasing-pros and cons of online purchasing-Electronic market- Models of Electronic market -Types of E-Commerce systems - B2B, B2C, C2C, C2B, B2A, C2A, G2B, G2C and End-to-End process. E-Payment -introduction to E- payment system-steps involved in E-payment process-Types of E-payments. **(10Hrs)**

Unit IV: E-Security and Cyber Laws in India—Areas of internet security—internet protocol security -SET– SSL-SHTTP. Cyber laws in India- evolution of cyber law-need for cyber laws- Types of cyber frauds and cybercrimes- intruders in cybercrimes - preventive measures. **(10Hrs)**

Unit V: Information Technology Act 2000-Evolution of the Act-objectives-issues dealt -features-applicability- important terms-security practices-offences and penalties under the I.T. Act. **(8Hrs)**

CMHT 603 - INTERNATIONAL BUSINESS ENVIRONMENT

Learning Objectives:

- To enable the students to understand the conceptual framework of international business
- To enable the students to know the mechanism of free trade, Forex control and BoP.
- To enable the students to know the regulatory framework of various international trade associations and institutions.
- To make the students to be aware of the international trade procedure and logistics management
- To make the students to be aware of the issue in international business.

Learning Outcomes: The students will be able to-

- Identify the factors influencing the international business.
- Analyze the mechanism of free trade, Forex control and BoP.
- Understand the regulatory framework of various international trade associations and institutions
- Recognize the international trade procedure and logistics management
- Recognize the issues in international business.

Pedagogy: This course includes class lectures, assignments, case studies, group discussions, seminars, and applications with examples.

Unit I: International Business- Introduction-Nature; Importance; Drivers of Globalization; Stages of Internationalization; Approaches of International Business; Modes of Entry into International Business; Advantages and Problems of International Business; Factors Affecting International Business; techniques of analyzing business environment; Theories of International Business; International Trade Environment; Tariffs and Other Barriers of International Trade. **(10 Hrs)**

Unit II: Free Trade, Protectionism, Balance of Payment and Forex- Free Trade and Protectionism- Methods; Arguments For and Against. Foreign Exchange Control: Foreign Exchange Market; Methods of Exchange Control; Exchange Control in India; FEMA and RBI Provisions of Exchange Control; Exchange Rate Classification; Appreciation and Depreciation of Currency Value.

Balance of Payment: Components of Balance of Payment; Disequilibrium in the Balance of Payment; Methods of Correction of Balance of Payment; India's Balance of Payment Crisis **(10Hrs)**

Unit III: International Economic Organization and Regulatory Framework

International Monetary Fund; World Bank; ASIAN; UNCTAD; European Union; NAFTA; Asia Pacific Economic Cooperation; Bilateral and Multilateral Trade Agreements.

Regulatory Framework: GATT; WTO; ILO. Guidelines for Settlement of International Trade Disputes and Complaints. **(8Hrs)**

Unit IV: International Trade Procedure and Logistics Management

Export Procedure; Import Procedure; Export Promotion- Role of Export Promotion Organisation, Trade Fairs and Exhibition; Problems in International Marketing Communication.

International Production and Logistic Management- Five Key Decisional Areas of Production Management; Elements of International Operational Management; Generic Strategies of the International Business; Acquisition of Resource. International Logistical Management-Factors of Logistics Management. **(12Hrs)**

Unit V: Issues in International Business

Environmental Issues; Labour Issues; Social Responsibility of Business; Sustainable Development- Core Principles for Investment Policy for Sustainable Development; Economics of Climate Change **(8 Hrs)**

OPTIONAL STREAM - 1

FINANCIAL MANAGEMENT AND INVESTMENT SCIENCE (FMAIS)

CMST 601 - ACCOUNTING FOR FINANCIAL DECISIONS

Learning Objectives:

- To make the students to understand the procedure to prepare the investment accounts.
- To make the students to know the process of preparing the investment accounts.
- To make the students to understand the procedure for the preparation of human asset accounting.
- To make the students to prepare the net liability of the under writers.
- To enable the students to understand the concept of electronic and environmental accounting.

Learning Outcomes: The students will be to -

- Prepare and evaluate the investment accounts.
- Calculate the voyage account and accounting for farming.
- Estimate the human values in the organization.
- Evaluate the net liability of the underwriters.
- Examine the concept of electronic and environmental accounting.

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Investment accounts – types — ex-interest and cum-interest – ex-dividend and cum-dividend, Bonus shares, Right Issue. **(8hrs)**

Unit II: Voyage accounts: Meaning-important items of expenses and incomes– preparation of voyage accounts- Accounting for incomplete voyage.

Accounting for Farm: Farm accounting – features – objectives – Preparation of final accounts **(10hrs)**

Unit III: Human Asset Accounting: Objectives–importance-advantages-limitations-Valuation models –Historical cost approach— Replacement Cost approach – opportunity

cost approach-Present value approach, Lev and Schwartz Model- Valuation on a group basis-Evaluation of the Valuation Models. **(10Hrs)**

Unit IV: Accounting for Underwritings: Types of Underwriting- Provisions regarding underwriting agreement- Marked and unmarked applications- Calculation of net liability of under writers. **(12Hrs)**

Unit V: Horizons in Accounting: E Accounting-Characteristics- Advantages- Disadvantages, Environmental Accounting-Concept Advantages. **(10hrs)**

OPTIONAL STREAM - 1

FINANCIAL MANAGEMENT AND INVESTMENT SCIENCE (FMAIS)

CMST 602 - SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT

Learning Objectives:

- To make the students to understand the concepts of return and risk associated with various investment opportunities.
- To make the students to calculate the risk and return.
- To enable the students to understand the valuation of securities
- To enable the students to use technical analysis tools in stock trading
- To make the students to understand the portfolio analysis and security selection

Learning Outcomes: The students will be able to

- Understand various risks and return associated with different investment avenues.
- Calculate the risk and return.
- Calculate the value of securities.
- Apply the technical tools for trading decisions.
- Construct the portfolio and evaluate its performance.

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Investments- introduction-Nature and scope of investments analysis; Elements of investment - return, risk and time element; Objectives of investments; Types of investments: Financial investments- securities and derivatives, deposits tax sheltered investments; Non-financial investments - real estate gold and other types and their characteristics; sources of financial information. **(12Hrs)**

Unit II: Risk and Return: Return and Risk: Security return – Return measurement, Risk: Meaning – Elements in risk - Systematic risk and Unsystematic risk – Measurement of systematic risk. **(8Hrs)**

Unit III: Fundamental Analysis and Valuation of Securities: Fundamental Analysis: Economic analysis – Industry analysis – Company analysis.

Valuation of Shares: Concept of present value – Share valuation model: one year holding period – Constant growth model – Multiple Stage growth model - Discount rate– Multiplier Approach to share valuation.

Valuation of Bonds: Bond return – Coupon rate – current yield – spot interest rate – YTM – YTC – Bond prices – bond pricing theorem – bond risk – bond duration. **(12hrs)**

Unit IV: Technical Analysis and Efficient Market Hypothesis: Technical analysis: Meaning – Basic principles of technical analysis – Dow Theory. Price charts: Line chart, Bar Chart, Japanese candle stick chart – Trends and trend reversal, Chart patterns: Support and resistance patterns, Reversal patterns and continuation patterns – Elliot wave theory. Mathematical Indicators: Moving Average and Oscillators - Market indicators – Breadth of the market – Short interest – Odd-lot index –Technical vs. Fundamental analysis. Efficient Market Hypothesis: Random walk theory–Efficient market hypothesis–forms of Market efficiency: weak form– semi strong form – strong form – tests of weak, semi- and strong form efficiency. **(8 Hrs)**

Unit V: Portfolio Analysis and Selection: Portfolio Analysis: Meaning of portfolio- Phases of portfolio management– Expected return of a portfolio– Risk of a portfolio- reduction of portfolio return through diversification – portfolios with more than two securities – Risk-Return calculation of portfolios with more than two securities. Portfolio selections: Markowitz model - Feasible set of portfolio– Selection of optimal portfolio – Limitation of Markowitz model – CAPM. SLM and CML. **(8Hrs)**

HUMAN RESOURCE DEVELOPMENT AND MANAGEMENT (HRDAM)

CMST 603- STRATEGIC HUMAN RESOURCE MANAGEMENT

Learning objectives:

- To enable the students to know the concepts of HR Management in an organization.
- To enable the students to understand the process of HRM planning.
- To make the students to understand the significance of employees training and development.
- To enable the student to know the employees performance evaluation techniques.
- To enable the students to understand the basic concepts of HR accounting.

Learning Outcomes: The students will be able to

- Understand the strategic decision for human resource management.
- Design and implement the effective human resource planning.
- Evaluate the employees training and development techniques.
- Evaluate and appraise the employee's performance.
- Implement and evaluate the HR accounting in an organization.

Pedagogy: This course includes class lectures, assignments, case studies, group discussions, seminars, and applications with examples.

Unit I: Strategic Human Resource Management-introduction-objectives-functions of HRM-systems approach to HRM-strategic management process- specific HR strategies-Developing HR strategies-competencies of HR- benefits of strategic management-Strategic International Human Resource Management. **(10Hrs)**

Unit II: Human Resource Planning and Human Resource Policies-need and importance of Human Resource Planning -objectives-benefits of Human Resource Planning-Factors affecting Human Resource Planning -HRP process. Acquisition of Human resource- Job analysis and design, Recruitment and selection, Placement,

Induction and Socialisation (10Hrs)

Unit III: Employee Training and Executive Development: Introduction –need for training- importance and objectives of training- types of training – on the job training and off the job training- evaluation of effectiveness of training- Executive development- objectives of executive development-process of Executive development (10Hrs)

Unit IV: Job Evaluation, Strategic Management and Performance Appraisal: Concept of Job evaluation-objectives-process of Job evaluation- Job evaluation techniques. Strategic Management and Performance appraisal- need and purpose- Methods of Performance appraisal-Problems of Performance appraisal. (8 Hrs)

Unit V: HR Accounting: HR Accounting – concept of HR accounting – need for HR accounting – objectives- uses – methods –recent scenario of HR accounting. (10 Hrs)

OPTIONAL STREAM – 1

FINANCIAL MANAGEMENT AND INVESTMENT SCIENCE

CMST 652 - ACCOUNTING FOR MANAGERIAL DECISIONS

Learning Objectives:

- To enable the students to learn about the techniques for long term investment decision.
- To enable the students to analyze the risk involved in the long term investment.
- To enable the students to understand the transfer pricing techniques.
- To enable the students to understand the lease finance concepts.
- To enable the students to understand the financial and non-financial measurement of performance.

Learning Outcomes: The students will be to

- Evaluate the long term investment decisions
- Calculate the risk involved in the long term investment.
- Apply transfer pricing techniques for pricing decisions.
- Evaluate the financial aspect of leasing.
- Evaluate the financial and non-financial performance of a project.

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Long Term Investment Decisions - Capital Budgeting -meaning importance - process Evaluation-Techniques -Urgency -Payback -ARR Improvement on traditional approach -Discounted Cash flow Techniques Net Present Value -Internal Rate of Return -Terminal Value Method - Profitability Index -Capital Rationing. **(12 Hrs)**

Unit II: Risk Analysis in Capital Budgeting- Relationship between risk and returns- Techniques: Risk Adjusted Discount Rate -Certainty Equivalent Coefficient - Sensitivity Analysis –Probability Assignment - Standard Deviation -Coefficient of Variation -Decision Tree Analysis. **(10Hrs)**

Unit III: Transfer pricing- Transfer Pricing Transfer Pricing – meaning, necessity, Objectives, applications, Methods (Cost Based, Market Price Based and Negotiated Pricing), Advantages and Disadvantages, Criteria for setting Transfer Prices, Guiding Principles in the fixation of transfer prices, Transfer Price in different situations. International transfer pricing: meaning, factors affecting international transfer pricing **(8Hrs)**

Unit IV: Lease Financing: Concepts of leasing – Forms of lease financing – Economics of leasing – Financial evaluation of leases from lessee's and lessor's point of view. **(10Hrs)**

Unit V: Performance Management: Financial and non-financial measurement of performance – Return on investment – Residual income – Economic value added (EVA) – Concept – measurement – Balanced score card – Concept – objectives – Multiples core card measures–New horizons in Managerial control. **(8Hrs)**
