COLLEGE (AUTONOMOUS), UJIRE - 574240**
(Re-Accredited by NAAC at 'A' Grade with CGPA 3.61 out of 4)

DEPARTMENT OF PSYCHOLOGY

Syllabus of
Bachelor's Degree in PSYCHOLOGY

**(CHOICE BASED CREDIT SYSTEM SEMESTER
SCHEME)
2020-21 ONWARDS**

Approved by the BOS meeting held on 13-08-2020
Approved by the Academic Council meeting held on 10-11-2020

PSYCHOLOGY AS A DISCIPLINE

Preamble

Psychology is not just an academic subject that exists only in classrooms, research labs and mental health institutions. It is a scientific field that aims at understanding human nature and behaviour. Knowledge of Psychology helps understand one's own strengths and weaknesses by giving practical experiences. It gives awareness about social and psychological problems faced in general and prepares the student to face everyday challenges by exposing him/her to coping strategies. Moreover makes the student realize that an aim is attainable. It is a powerful force that influences all our activities in every walk of our life.

OBJECTIVES:

To take forward, the Vision and Mission of the College following objectives are set.

- To foster interest in psychology and create foundation for further studies in Psychology
- To impart knowledge of the basic concepts and various perspectives of psychology.
- To create an awareness of factors influencing behaviour
- To understand matters relating to stages of Human development
- To familiarize students with criteria of abnormal behaviour
- To give an over view of mental disorders and possible ways of handling them
- To acquaint the students with nature of work behaviour, and to help the students in the use of this in understanding and increasing efficiency.
- To attain skills of interaction with supervisory and managerial personnel in terms of training, counseling and problem solving relationships.
- To highlight the steps and strategies to cope with stress
- To attain and maintain one's health through preventive behaviour
- To arouse intellectual curiosity and create an interest for research in psychology

PAPER DESCRIPTION

Sl. No		Semester	Paper	Title
1.	BASPYC 13 1	I	I	Foundations of Behaviour-I
2.	BASPYC 18 1	II	II	Foundations of Behaviour-II

OBJECTIVES
I SEMESTER
FOUNDATIONS OF
BEHAVIOUR I

Course I - BASPYC131

48 hrs (4 hrs/week)

- To impart knowledge of the basic concepts and various perspectives in psychology
- To understand the biological basis of human behaviour
- To understand the basic perceptual process
- To acquaint the students with the dynamics of human behaviour

Course Outcomes:

CO1 : Show an understanding of the basic principles that govern and direct human behaviour.

CO2: Apply the knowledge of various branches of Psychology to overcome the difficulties in day-to-day life.

CO3: Connect anatomical structure with various behaviours and analyse.

CO4: Apply the knowledge of learning principles and memorising skills in the preparation for examination and share them with other students.

UNIT -1: Psychology and its perspectives

12 hrs

Meaning, definition and goals of psychology; Schools of Psychology –structuralism, functionalism, Gestalt Psychodynamic, behaviorism, cognitive and humanistic; Major sub fields: Research areas –developmental, social, experimental, physiological, cognitive, cross-cultural, psychometrics and evolutionary; Applied areas –clinical, counseling, educational, sports, forensic, industrial and organizational; Research: Meaning, definition, Methods – introspection, Observation, experimental

UNIT -2: Biological Basis of Behavior**12 hrs**

Neuron –structure and functions; Nervous system: Central –brain and spinal cord; peripheral –somatic and autonomic; lobes, hemisphere; Endocrine Glands and behavior –pituitary, thyroid, parathyroid, pineal, adrenal and gonads. Biology of sleep -stages, sleep-wake cycle

UNIT -3: Sensation, Perception, Attention**12 hrs**

Sensation-5 senses –sense organs -functions, sensory threshold, Perception –laws of perceptual organization; errors in perception; subliminal perception Attention –meaning, factors and types of attention

UNIT -4: Emotion and Motivation**12 hrs**

Emotion: Definition; biology of emotion; cognitive factors; behavioral and socio-cultural factors; Emotional quotient.

Theories-James-Lange; Cannon-Bard; Schachter and Singer x

Motivation: definition; motivation cycle- needs, drives and motives types –Biological and social motives; Maslow's hierarchy of needs.

Practical BASPYP 132 (Any Six)

1. Nature of question and accuracy of report
2. Muller-Lyer illusion
3. Span of attention
4. Two point threshold
5. Self -Efficacy scale
6. Left and Right Brain Dominance
7. Ishihara's test for colour blindness
8. Emotional intelligence scale
9. Emotion and free association
10. Competition/cooperation

**Statistics - Frequency distribution, graphical representation and
central tendency ungrouped data**

Research Methodology

- ★ Meaning and Definition of research
- ★ Objectives of research
- ★ Types of research

Skill component

BASPYC131: Foundations of Behaviour I

Sl.No.	Skill Components incorporated	Mode of Implementation
1	Develop a schedule for observing any behavior and, conduct the observation.	Submitting the report in assignment form, presenting in the class.
2	1. Develop a neat diagram of neuron, mention its parts. Link them with daily life functioning. 2. Understanding the structure and functions of brain.	1. Classroom presentation and group discussion 2. Anatomy lab visit to see and learn the structure and functions of brain.
3.	Learning about achievement motivation by collecting the biodata of highly achieved individuals.	Class room presentation and Group discussion..

REFERENCE BOOK:

1. Kothari, C.R. (2012). *Research Methodology (2nd ed.)* New age International Publisher : New Delhi

Objectives
II SEMESTER
FOUNDATIONS OF
BEHAVIOUR II

Course II - BASPYC 181

48 hrs (4 hrs/week)

- To understand the process of memory and techniques to improve in everyday life situation
- To understand the process of acquisition of skills and information which brings changes in behaviour
- To gain knowledge about individual differences and assessment of Intelligence
- To understand the components of Personality and assessment of personality

Course Outcomes:

CO1 : Monitor and control their emotions in critical situations.

CO2: Adopt healthy personality characteristics to lead purposeful life.

CO3 : Undertake services in society where psychological assessment techniques applied.

UNIT -1: Memory and Learning

12 hrs

Memory –meaning; encoding, storage and retrieval; Atkinson-Schiffrrin Model of Memory; Forgetting -meaning and theories – Decay theory, inhibition theory, retrieval cues: Mnemonics. Learning -meaning, Definition; classical conditioning; operant conditioning; trial and error learning; cognitive learning –latent and insight; social learning. Learning styles -VARK

UNIT -2: Higher cognitive processes

12 hrs

Thinking -meaning and definition; types of thinking -convergent vs divergent; concrete vs abstract; Concept formation-meaning;stages Reasoning-meaning and definition; types - inductive and deductive Problem solving -meaning and definition; steps, strategies and hindrances in problem solving

UNIT -3: Personality**12 hrs**

Meaning and definition; theories: Freud's Psychoanalytical theory; Roger's theory of self-actualization; Eysenck's dimensions of personality; Mc Crae and Costa's Big Five factors
Assessment of personality -observation; questionnaires and inventories and projective tests

UNIT-4: Intelligence**12 hrs**

Meaning and definition; Factors influencing intelligence –heredity and environment; theories –Spearman's 2 factor theory; Cattle's theory of crystallized and fluid intelligence; Gardner's theory of multiple intelligences; Concept of IQ, Classification of IQ: Normal probability curve, Extremes of intelligence –Gifted and mentally challenged; intelligence testing;

Skill component**BASPYC181: Foundations of Behaviour II**

Sl.N o.	Skill Components incorporated	Mode of Implementation
1	List out the pleasant, unpleasant and significant life experiences to understand the importance of memory.	Through report writing and classroom presentation.
2	List out the learning that took place in one's life through classical conditioning, imitation, trial and error and insight learning modes.	Brain storming and group discussion.
3	Knowing the IQ level of self and others.	By taking and administering IQ tests.

Books for References

6. Baron & Misra (2000). *Psychology*, (5th edn), Pearson publication.
7. Plotnik, R. (1992). *Introduction to Psychology*, (3rd edn), Wadsworth publishing Co Inc.

Practical BASPYP182 (Any Six)

1. Retroactive inhibition
2. Recall and recognition
3. Bilateral transfer of learning
4. Insight learning
5. Problem solving
6. Concept formation
7. Eysenck's Personality Questionnaire
8. Big Five personality traits
9. GMAT/OTIS/Sternberg's Test of intelligence
10. WAIS/WAPIS/RPM/Bhatia's

Statistics - Measures of Central tendency grouped data

Research Methodology

- ★ Data collection – Primary and secondary data
- ★ Collection of primary data – Observation method Interview method Questionnaire method

New Delhi

Objectives
III SEMESTER
LIFE SPAN
DEVELOPMENT - I

Course III - BASPYC231

48 hrs (4 hrs/week)

- To understand the stages of life span development
- To have an overview of research designs in the field of child development
- To gain knowledge about the role of heredity and environment on Growth and Development.
- To sensitize students about childhood disorders and possible ways of handling them

UNIT -1: Introduction and Foundation to Life Span Development 12 hrs

Meaning and characteristics of lifespan development; Methods – Longitudinal, Cross – sectional, case study, Biographical method, sex cells and their differences, Dominance and recessive cells, preparatory processes; maturation, ovulation and fertilization –its importance, multiple off springs; identical twins and fraternal twins, Mutations, chromosomal abnormalities: Down's syndrome, abnormalities of the sex chromosomes: XYY syndrome, triple X syndrome, Klinefelter syndrome (XXY), Turners syndrome (XO), Fragile X syndrome.

UNIT -2: Pre-natal Development 12 hrs

Germinal period ovum, embryo, fetus- hazard, prenatal environmental influences, stages of labour and delivery, types of birth –natural or prepared child birth, caesarian section, breech birth, Transverse presentation, Instrumental birth, Reproductive choices –genetic counseling, prenatal diagnostic choices.

UNIT-3: Infancy, Babyhood and Childhood 12 hrs

Sub-divisions of Infancy, Physical and Psychological Hazards, New born reflexes, APGAR scales, SIDS Babyhood: Speech development -stages; hazards of babyhood

Childhood: Early and Late Childhood, Concept development; Piaget's stages of cognitive development. **Moral development;**

UNIT-4: Emotional Development and disorders of childhood

12 hrs

Development of emotional expression – self-conscious emotions; emotional catharsis, aids to emotional catharsis. Hazards in emotional development, emotional deprivation, too much affection, heightened emotionality. Problems of childhood: Enuresis, encopresis, sleep walking and tics, learning disabilities, attention deficit hyperactivity disorder, autism

Skill component

BASPYC231: Life Span Development -I

Sl.N o.	Skill Components incorporated	Mode of Implementation
1	Gathering biography and case histories.	Classroom presentation and group discussion.
2	Knowing the characteristics of twins.	Class room interaction with twins
3	Understanding the germinal period.	Video/movie show followed by group discussion.
4	Knowing about childhood problems.	Case analyses and presentation.

1. Seguin Form Board test
2. Coloured Progressive Matrices
3. Children Moral Value Scale by Arpana Sen Gupta
4. Number cancellation test
5. Developmental Screening Test
6. ADHD rating scale/Check list
7. Autism Rating Scale
8. Assessment of learning disability
9. Emotional stability
10. CPQ

Statistics - Measures of variability- Standard Deviation/Quartile deviation

Research Methodology

- ★ Sample and population
- ★ Size of the sample
- ★ Characteristics of good sample
- ★ Meaning of research design
- ★ Important concepts related to research design

REFERENCE BOOK:

1. Kothari, C.R., (2012). *Research Methodology (2nd ed.)*, New age International
Publisher: New Delhi.

Objectives
IV SEMESTER
LIFE SPAN
DEVELOPMENT -II

Course IV BASPYC281

48 hrs (4 hrs/week)

- To understand growth and development from Adolescence to old age
- To sensitize the students about issues related to developmental stages
- To understand the age related physical and psychological health issues
- To focus on psycho social support

Course Outcomes:

CO1 : Demonstrate an understanding of study procedures of children's learning abilities.

CO2 : Assess the symptoms of chromosomal abnormalities and help the patients to get remedial services.

CO3: Show the knowledge of prenatal period, birth process and environment in their planned and healthy behavior.

UNIT -1: Puberty and Adolescence

12 hrs

Puberty -features, variations in the age of puberty and consequences of pubertal changes, gender identity and its emergence, Adolescent psychosocial issues identity, autonomy, intimacy, sexuality and achievement Problems of adolescence: anorexia nervosa and bulimia, teenage pregnancies, Suicide, premenstrual syndrome, behavioral addictions
Erickson's stages of development

UNIT -2: Early Adulthood**12 hrs**

Social mobility, vocational adjustment, marital adjustment, sexual adjustment, adjustment to parenthood, the diversity of adult lifestyle –single adults; cohabitating adults; divorced adults; remarried adults; gay and lesbian adults

UNIT 3: Middle Adulthood**12 hrs**

Characteristics of middle age, health and disease; sexuality; adjustment to changed roles, adjustment to approaching retirement and old age, Divorce, Remarriage, Burnout, Empty nest syndrome, intergenerational relationship, mid-life crisis.

UNIT -4: Late Adulthood**12 hrs**

Longevity; the young old, old-old and oldest old; physical and cognitive changes, problems of old age, Mental health problems –depression, dementia, Alzheimer's disease and other afflictions. Geriatric care.

Skill component**BASPYC281: Life Span Development -II**

Sl.N o.	Skill Components incorporated	Mode of Implementation
1	Understanding adolescent problems.	Group discussion/by analyzing the related videos and TV/ programs/case presentation.
2	Understanding marital adjustment and divorce.	Class room presentation/video shows/ interaction with couples/ group discussion.
3.	Knowing the mental health problems of old age.	Movie reviews/video shows and case presentation.

8. Hetherington, E. M., & Ross (1994). *Child Psychology (3rd ed.)*.
9. Kale, S.V. (1990). *Child Psychology and guidance*

Practical BASPYP282 (Any Six)

1. Parent Child Relationship Scale
2. Kimberly's internet addiction scale
3. Suicidal ideation scale/ Beck's scale for suicide ideation
4. Life satisfaction scale
5. Psychological Well Being
6. Geriatric Depression Scale/ Becks Depression Inventory
7. Family Environment Scale
8. Marital adjustment inventory
9. Vocational Interest Record
10. Adolescent Problem Checklist

Statistics – Rank difference correlation

Research Methodology

- ★ What is a hypothesis and characteristic of hypothesis
- ★ Basic concepts concerning testing of hypothesis (types of hypothesis)

- a. Null hypothesis and Alternate hypothesis
- b. Level of significance
- c. Decision rule or test of hypothesis
- d. Type I and Type II errors
- e. Two tailed and one tailed test

REFERENCE BOOK:

New Delhi.

V SEMESTER
SOCIAL PSYCHOLOGY
Course V BASPYC331

Objectives

48 hrs (4 hrs/week)

- To know the significance of Interpersonal Relationship
- To understand the concept of prosocial behaviour and related aspects
- To understand the various social issues like attitude, prejudice and discrimination
- To acquire knowledge about role of aggression on Behaviour

Course Outcomes

CO1: Apply the knowledge of social Psychology in dynamic social situations.

CO2: Articulate the experiences, thoughts, feelings in interpersonal relationships.

CO3: Demonstrate cordial relations in society and work without prejudice and discrimination. CO4 : Know and manage the aggressive and offensive behaviours.

UNIT I: Introduction and close Relationship

12 hrs

Social Psychology-Meaning and definition; Methods: survey, correlation, Focus group discussion Non-verbal **communication**; impression formation Interdependent relations with family and friends; Beyond the family -Friendships: Loneliness life without close relationships.

UNIT II: Prosocial Behavior

12 hrs

Meaning; providing help -5 essential steps; factors that increase the tendency of prosocial behavior - Prosocial model, empathy, belief in a just world, social responsibility, internal locus of control, low egocentrism; negative state of relief; empathic joy; factors decreasing the tendency of prosocial behavior - social exclusion, pluralistic ignorance, bystander effect, social dissonance, putting an economic value on time and effort

UNIT III: Attitude and Prejudice**12 hrs**

Meaning, Definition and characteristics of attitudes; formation of attitudes; Functions of attitude Prejudice- Meaning and Definition; growth; techniques for counteracting its effects; prejudice based on gender; Stereotype; Discrimination

UNIT IV: Aggression**12 hrs**

Theoretical Perspective; Role of biological factors - instincts: Drive theories: Social learning perspectives; General aggression model; Social causes of aggressions; Situational determinants of aggression: of aggression, Prevention and control of aggression- punishment, cognitive interventions and forgiveness

Skill component**BASPYC331: Social Psychology**

SL.N o.	Skill Components incorporated	Mode of Implementation
1	Conducting survey on a current social issue.	Assignment/ Report writing on the survey conducted.
2	Understanding non-verbal communication and non-verbal communication in daily life.	Video shows/ role play and group discussion.
3	Learning the methods of controlling aggression	Guest lecture/ TED lectures/ student seminars.

Objectives:
V SEMESTER
ABNORMAL
PSYCHOLOGY

Course VI BASPYC332

48 hrs (4 hrs/week)

- To impart knowledge about the difference between normality and abnormality
- To have an overview of criteria of abnormality and overcome misconceptions of abnormal behaviour
- To familiarize students with symptoms and causes of prevailing mental disorders as per International classifications of mental disorders.
- To bring awareness about rehabilitation and therapies available.

Course Outcomes:

CO1: Identify the Psychological imbalances in the society.

CO2: Prevent mental illnesses and maintain their Psychological health by understanding the reasons for mental illness.

CO3: Create awareness about mental illness and preventive methods among their family members.

CO4: Enhance their personality by overcoming the conflicts and frustration in life.

UNIT-I: Introduction

12 hrs

Defining abnormality, criteria of abnormality, classification of mental disorders -DSM and ICD -10 classification, Psychological models of abnormality -psychodynamic, behaviouristic, Cognitive -behavioural and Humanistic models

UNIT –II Anxiety based and Somatoform disorders

12 hrs

Anxiety based disorders: The anxiety based response patterns, Phobic disorders, obsessive compulsive disorders, generalized anxiety disorder, Somatoform disorders: Somatization disorder, hypochondriasis, conversion disorders, Conversion disorder; Dissociative disorder

- psychogenic amnesia, fugue; dissociative identity disorder : causes Biological, Psychological and Socio-cultural factors.

UNIT –III Schizophrenia and Delusional Disorder

12 hrs

Schizophrenia: Types: Paranoid; Disorganized; catatonic; undifferentiated Causes - Biological, Psychological and Socio-cultural factors.

Delusional Disorder - Types Erotomaniac: Grandiose; Jealous; Persecutory; Somatic and mixed type. Causes - Biological, Psychological and Socio-cultural factors.

UNIT –IV Personality and Mood Disorders

12 hrs

Personality Disorders- Cluster A, B and C Schizoid, antisocial, histrionic and avoidant personality disorder; Causes - Biological, Psychological and Socio-cultural factors.

Mood disorders- Major depressive disorder; bipolar I; Causes - Biological, Psychological and Socio-cultural factors.

Skill component

BASPYC332: Abnormal Psychology

Sl.No.	Skill Components incorporated	Mode of Implementation
1	Understanding the models of abnormality.	Assignment/video lectures/group discussion/student seminars.
2	Understanding different types of psychological disorders.	Video shows/ role play and group discussion/ case presentation/ movie reviews and field visits/clinical posting.
3	Knowing the personality disorders.	Guest lecture/TED lectures/student seminars/case analysis.

V Semester Practical (Any TEN experiments)

SLN o.	Practical V – BASPYP 333
	Social & Abnormal Psychology
1	Stereotype/Social distance scale
2	Locus of Control
3	Personal Values Questionnaire
4	Progressive weight
5	Aggression Scale By Mathura / Bus & Perry
6	Self Confidence Scale
7	Level of aspiration
8	Teacher attitude scale
9	Sinha's Anxiety Scale
10	Social Phobias Inventory Jonathan S

11	Yale brown obsessive compulsive scale
12	Histrionic Personality Questionnaire
13	Bell's adjustment inventory
14	MPQ/ Family Pathology Scale
15	Beck's Depression inventory

16	Sentence Completion Test
Statistics	Correlation- Spearman's Product Moment/ Chi-square

Objectives
VI SEMESTER
HEALTH
PSYCHOLOGY

Course VII BASPYC 381

48 hrs (4 hrs/week)

- To acquaint the students about the need of health psychology and the health related behaviors
- To understand the impact of stress on health
- To have awareness about health damaging and health promoting life styles
- To attain and maintain ones health by means of coping strategies

Course Outcomes:

CO1 : Creates awareness about emerging field of health Psychology.

CO2 : Makes the student know better about how the psychological functioning creates somatic disorders.

CO3 : Helps students to adopt health enhancing behaviours.

CO4 : Helps develop effective coping skills towards everyday problems.

UNIT -I : Introduction to health psychology and health behaviour **12 hrs**

Definition of Health Psychology, History of body mind relationship, Need for the field of health psychology, Health behaviors: factors influencing health behaviors; barriers to modify poor health behaviour, Models of health Biomedical and Bio psychosocial model.

UNIT -III Health enhancing and compromising behaviour **12 hrs**

Health compromising behaviors: Substance abuse - Alcohol; Tobacco and Smoking; drugs; Psychoactive Substances, abnormal eating behaviour, sedentary lifestyle

Health enhancing behaviors: Exercise-types benefits of exercise, effects on psychological health, Diet -Maintaining healthy diet, sleep hygiene, accident prevention

UNIT -III: Stress and life style diseases**12 hrs**

Stress -sources, Types of stress- Frustration, conflict and pressure, Stress and immune system, Hans Selye's theory of stress; Role of stress in CHD, Hypertension- causes and relations between stress and hyper tension; Diabetes, types, Stress and diabetes. Sex related health behaviour
-HIV/AIDS

UNIT-4 Coping strategies**12 hrs**

Social support; yoga; Mindfulness meditation and time management; positive psychology interventions - gratitude, forgiveness, savoring, Patience, creativity.

Skill component**BASPYC381: Health Psychology**

Sl.No.	Skill Components incorporated	Mode of Implementation
1	Understanding the body mind relationship.	video lectures/Self report/ group discussion
2	Adapting to health enhancing behaviours.	Preparing diet plan chart Video shows/group discussion/case presentation/ movie reviews and field visits.
3	Knowing the impact of stress on human life and developing stress management techniques.	Yoga training/stress management training/ Guest lecture/TED lectures/case analysis.

- To provide an overview of the many facts of psychological tests and measurement

principles used in assessing human behaviour.

- To provide familiarity with test construction, test development, standardization, validity, reliability, and evaluation of different psychological tests.

Learning Outcomes:

- Students will know the significance of standardization of the tests
- Students understand the steps in test construction
- Students will be knowing various ways to interpret the test scores

Syllabus:

Unit I Psychological Tests

6 hrs

Psychological Tests: Meaning, Definition, Uses, Classification of psychological tests, Characteristics of a good test.

Unit II Test Construction

6 hrs

General steps in test construction, Ethical Issues in Psychological testing, Item analysis; Purpose of item analysis, Factors influencing on the item analysis

Unit III Standardization of the test

6 hrs

Meaning of Norm referencing and criterion referencing; Steps in developing norms, types of norms: developmental norms, within group norms.

Unit IV Interpretation of scores and Application

6 hrs

Meaning, Caution for interpreting norms, computer use in the interpretation of test scores, Application of psychological tests in different fields.

Evaluation:

Continuous Internal Assessment: (10 marks): Assignments and Seminars

Semester End Exams: 40 Marks

**Question Paper Pattern:
Psychological assessments**

Max. Marks: 40

Time: 2 hrs

General inspections:

I	1)	05
	2)	05
II	1)	05
	2)	05
III	1)	05
	2)	05
IV	1)	05
	2)	05

Title : BASPYE 12 Research Methodology

Duration : 24 Hours (2Hrs/week; Total 24Hrs)

**Marks :50- 40 marks semester end exam+ 10 marks internal
assessment Credit : 4**

Objectives:

- To understand various technique and processes of research.

- To equip students with the knowledge of scientific method of Psychological research.

Learning Outcomes:

- Students will be well versed with the criteria of a good research
- Students will get hands on understanding about scientific steps involved in conducting the Research
- 3. Students should be equipped with knowledge of qualitative research

Syllabus:

Unit I Introduction to Research

6 hrs

Meaning, Objectives, motivation, types or research, Criteria of a good research, Problems encountered by researchers in India.

Unit II Steps in Conducting the Research

6 hrs

Reviewing of Literature: Meaning and Purpose of the review, Problem-:Meaning and characteristics of a problem. Hypotheses: Nature and, types of hypotheses. Sampling: Principles, Types – probability and non-probability. Methods of data collection.

Unit- III: Designs of Research

6 hrs

Meaning and purpose of research design, Types of research designs;

Unit IV: Qualitative research

6 hrs

Meaning, differences between quantitative and qualitative research, characteristics of qualitative research; process of qualitative research; values of qualitative research.

Evaluation:

Continuous Internal Assessment: (10 marks): Assignments and Seminars

Semester End Exams: 40 Marks

**Question Paper Pattern:
Research Methodology**

Value added course - 2
MENTAL HEALTH MANAGEMENT

Objectives: 1. To understand the significance of mental health
2. To familiarize various mental health managements.

Chapter s	Peri od No.	Topics to be covered
Unit-I		Introduction Health and Illness
	1	Health: Meaning & definitions (Physical and
	2	mental) Mental Health/ Mental Illness Continuum.
	3	Historical perspectives of Mental
	4	health/illness Body-mind Relationship
	5	Physiological causes for mental illness
	6	Psychosocial factors causing mental
	7	illness
	8	Diagnosis & Classification of mental illnesses –ICD,
	9	DSM. Human rights of mentally ill
	10	National mental health program
		Multi-Disciplinary team and role in mental Health management
Unit-II		Mental Illnesses
	11	Meaning and
	12	types Phobias
	13	OC
	14	D
	15	PTS
	16	D
	17	Somatoforms
	18	Disorders
	19	Dissociative
	20	Disorders
		Schizophrenia
		Depression
		Bipolar Disorders
		Delusional
		Disorders
Unit-III		Psychotherapies
	21	Meaning and
	22	theories Individual
	23	Therapy,
	24	Counselling
	25	Client centered
	26	therapy Relaxation
	27	Therapy Cognitive
	28	Therapy,
	29	Positive – Negative
		Reinforcement, Bio Feedback,
		Group Therapy,

	30	Family Therapy
Unit-IV		Promoting Self-esteem & Assertive training to enhance Mental Health
	31	Meaning & Definition
	32	Components of Self-Concept.
	33	The Development of Self-Esteem.
	34	The Manifestations of Low-Self-Esteem.
	35	Assertive Communication
