INTERNSHIP AT GREEN BIOTECH – 2022-23

(13-03-2023 to 18-03-2023)

INTERNSHIP

At

GREEN BIOTECH

Institute of Agriculture Biotechnology

Hilary Pinto Industrial Estate

Balehonnur Post- 577112

Chikamagaluru District

Karnataka

From

13-03-2023 to 18-03-2023

A Brief Report

The department of Chemistry organized an internship programme in the 'Green Biotech' at Balehonnur, Chikmagalur from 13th March to 18th March 2023 for 6 days. 11 students from final year BSc were participated in the programme.

The interns under the guidance of the Chemist Mr. Lokesh C.E were taught about handling basic chemistry laboratory apparatus and also were taught the process of analysis of pH, essential elements in soil etc. Soil analysis procedures were observed by the students and also, they learnt few processes of testing soil fertility and other parameters. They were acknowledged about instrumentation, principal and working of Flame photometry, atomic absorption spectrum, pH meter etc with practical observations.

On 17th March the CMD of the company Dr. Naveen Lloyd Misquith conducted the field visit for students in his estate where he educated students about various plant diseases like Koleroga of Arecanut, Leaf rust disease of Coffee, Yellow leaf disease of Arecanut etc with their causative agents and the treatments or preventive measures. Further he took a session on skill development and personality growth where he taught the ideal principles and behaviour to enhance individual personality.

A mock interview was held on the last day of internship for the students which may help them in the future. And on the same day a graduation ceremony was also conducted and the certificates of the participation was distributed to all the students.

At last, there was a photoshoot session with the CMD and staffs of the company along with all the interns from SDM College Ujire.

Overall, the internship of 6 days was worth of time and knowledgeable. Interns got in hand experience of the basic industrial laboratory handling. Also, the personality development session was more interactive and interesting. At last, the mock interview was really beneficial one, it gave an idea of how the interviews are conducted in the industries.

List of participants

Serial No	Programme Name	Programme Code	Roll Number	Name of the student
1.	BSC005	B.Sc PCM	200326	Khushi R Gowda
2.	BSC005	B.Sc PCM	200329	M.S.Sujnan
3.	BSC005	B.Sc PCM	200331	Nagaprasad
4.	BSC005	B.Sc PCM	200334	Sinchana J J
5.	BSC005	B.Sc PCM	200345	Skandashree G J
6.	BSC005	B.Sc PCM	200365	Maitri Hegde
7.	BSC005	B.Sc PCM	200371	Suprabh Billava
8.	BSC005	B.Sc CBB	200438	Gowtham H P
9.	BSC005	B.Sc CBB	200465	Hrithik H A
10.	BSC005	B.Sc CBB	200476	Dhruthi S Jain
11.	BSC005	B.Sc CBB	200484	Sanjana S

Dear Sir,

In order to provide industrial exposure and hands on training to students the Department of Chemistry has undertaken 'Student Internship Project' where in the students are expected to work in any industry preferably related to their stream of study. I feel Green Biotech would be the right place for such an exposure. I request you to kindly provide an opportunity to students of III B.Sc Chemistry to associate with your esteemed Industry from 9th March to 18th March. Looking forward for your positive response.

Thanks and regards

DEPARTMENT OF CHEMISTRY

REPORT

INTERNSHIP AT SIRI – 2022-23

(09-03-2023 to 19-03-2023)

A Brief Report

15 students of III B.Sc Chemistry have participated in internship program at various units of SIRI, Sri Dharmasthala Siri Gramodyoga Samsthe located in Ujire TB cross, Guruvayankere, (Minchinadka), Belal and Laila from 9th March to 18th March 2023

9th March, the first day of internship was at the main branch of SIRI situated near TB cross where the students introduced to textile technology and preparation of fragrance perfumes for the incense sticks. The process provided a great learning and a wonderful experience. The group of interns was separated into two in order to get more reliable and in person exposure throughout the internship.

The next day, on 10th March, one team went to Phenyl production unit Minchinadka, Guruvayankere. They were guided with production and packaging of Phenyl (Black phenyl, Rose phenyl etc.)

The other team went to bleaching powder production unit, Belal where they learnt the mixing of calcite powder and stable bleach to form bleaching powder. Everything including production, equipments, chemical,s weighing, quality control, wrapping and packaging were demonstrated by the staff and done by the interns.

On 11th, 13th and 14th March, the interns were working at the same venues to learn each detail with caution. They handled the production and packaging of their respective units to test their learning ability and that was an exuberant process.

The teams exchanged their venues of their work for next two days, 15th, 16th and 17th March to widen their knowledge by knowing other processes. Production of black phenyl from resin, castor oil, MCP, LCO and for sure the process requires high caution since it is a dangerous reaction. In addition we were also educated with management of demand and supply chain in such business and handling of rejected products. It was a light towards the marketing techniques.

On the final day dated 18th March 2023 both the teams joined. The interns were taught with production of incense sticks by using Charcoal powder, Saw dust, bamboo sticks and drying of incense sticks. Working of machinery in the production unit was introduced.

Then interns reported their completion of internship to Production Head Mr Ganesh. The reviews and inputs were discussed in order to share the knowledge in the form of experience. The whole internship was a great learning and working experience. It was a nice journey towards practical skill development. The interns were benefited by this internship program.
