

2.3 Teaching- Learning Process

2.3.1 Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

Response:

The institution has adopted several measures to promote the concept of active learning by converting the conventional classrooms into a liberated/democratic/discussion room, providing more space for the learners, transforming classroom lectures into resource centers, thus bringing about a paradigm shift from teacher-centric instruction to student-centric learning.

Experiential Learning:

The philosophy of ‘learning by doing’ - ‘seeing is believing’ is best exemplified in sessions and exercises involving hands-on experience which has become the mantra of active learning. Many initiatives have been introduced to offer platforms to the learners to gain knowledge and skill through experiential learning. Effective implementation of the following inside and outside the classroom has been ardently carried out.

2.3.1 EXPERIENTIAL LEARNING

THROUGH FIELD VISIT.

1.Department of History:The department of History S.D.M. College (Autonomous) Ujire arranged a field visit to VenoorHosangadi, Moodbidri Kodyadka and surrounding places as a part of Curriculum study, to know of History of the temple, Jaina Basdis, Gommatta Betta, Hosangadi palace, Moodbidri Palace, Jaina Matta, Thousand Pillar temple, Nyaya Basadi and Annaporneshwari Temple Kodyadka. 41 II BA Students Participated in the visit. 2.3.1 EXPERIENTIAL LEARNING

THROUGH

Student Research Project

2.3.1 Student Research Project Policy

Policy for Student Research Project

This is a unique academic exercise of the institution which aims at introducing the students to the scientific methods of research and analysis. It provides a platform for students to pursue a systematic study of topics of his/ her interest under the guidance of teachers. The Student Research Projects (SRPs) have awakened the spirit of enquiry among students to a great extent.

Methodology

- Students will complete one research project per year. The committee will make the students' groups and the same will be intimated to the departments.
- A student should complete three research projects in 3 years of his/her degree.
- Each staff is allotted batches of students for guidance during the first month of each academic year.
- Research activity begins in the month of July and ends in the month of January of the academic year.
- At the end of the term, the research projects which are thoroughly scrutinized by the guide, are submitted both in the form of soft and hard copies to the committee.
- The committee prepares department same will be kept in the concerned departments. The hard copies are maintained in the college library.
- Best student research projects will be rewarded.

Staff Responsibility

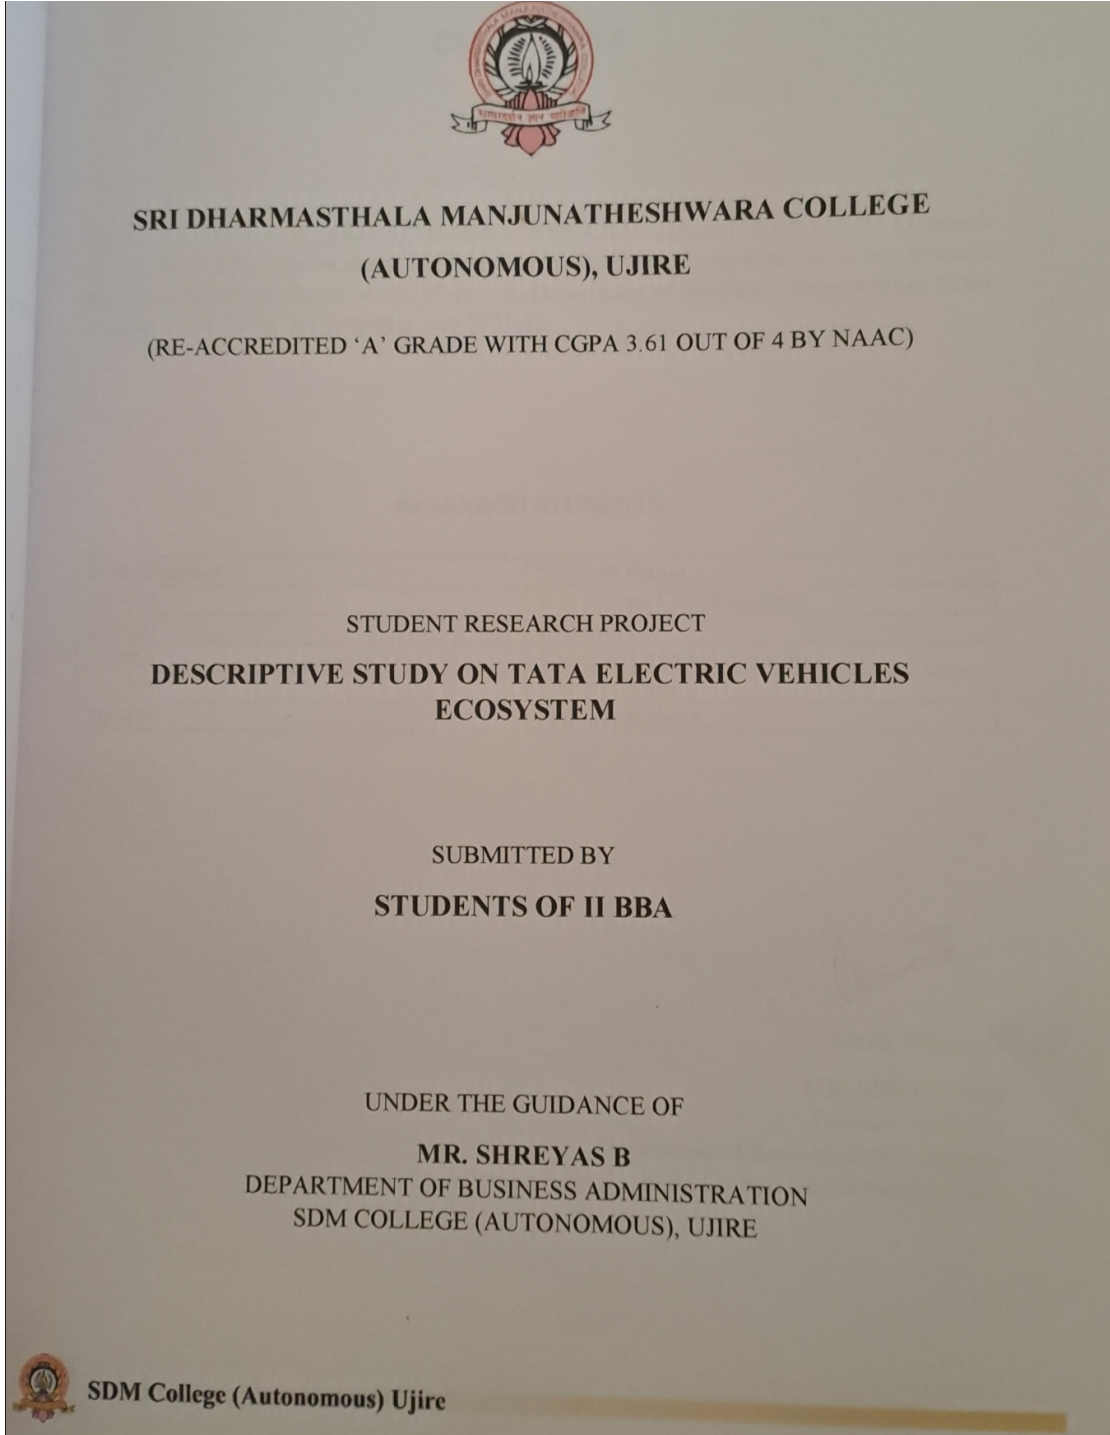

- Distribution of the SRPs among the staff members of the department.
- Each guide is requested to interact with the students' group and brief about the SRPs.
- Deciding the SRP topics with the consultation of the student groups.
- Conduct SRP group meetings frequently, encourage and guide the students to complete the SRPs within stipulated time.
- Inform the progress of your SRPs to the staff in charge of your department.
- Guide your students to take up their SRPs based on research methodology.

Sri Dharmasthala Manjunatheshwara College
(Autonomous), Ujire-574 240, Dakshina Kannada, Karnataka State

- Finalizing the SRP's DTP in Microsoft Word, font size 12 with Times New Roman/ Nudi/ Baraha font,

Cover page, Inner Page, Certificate by Research Guide, Acknowledgement and Preface to the SRPs is compulsory in each report.

BOOK & FILM REVIEW

Book Review on
Local self-Government in Mediaval karnataka

09/10

Keerthi R
210001 ✓

Introduction: "The book local self-government means that residents in towns,villages,and rural settlements are the hosts in thier heads authorising them to solve the most important issues.

Review: karnataka is one of the better developed states in India. Land reforms and other development initiatives and opportunities aimed at backward classes and dalits in the 1980s created a society that is not as polarised as in some of the other states in india.This has led to the formation of fairly cohesive society (Manor 1997).A less well known fact about karnataka relates to its long experimentation with decentralisation. Attempts to devolve powers to local bodies had been initiated even before independence. A serious effort to decentralise political structures in karnataka came about in the 1980s.The first major landmark in karnataka was the 1983 Act, which introduced a two-tier, elected sub-state level governance structure. A notable feature was 25 percent reservation for women in these bodies even before this was mandated by the Constitution.Elections under this Act were held in 1987. The 1983 Act was substituted by a new law in 1993 (karnataka panchayat Raj Act,1993) to accommodate the mandatory provisions brought in the 73rd and 74th amendments to the Constitution. The 1993 Act provides for a three-tier stucture zilla panchayat (districts level),taluk panchayat (block level) and grama panchayat (village level).

Conclusion: The panchayati Raj in India is a system established from the time immemorial, From the above research we see that the traces of the panchayati Raj found in the Ramayana Mahabharatha period. We also see from the chanakya Arthasastra which mention about local self-government and its fuctions.

Ooty in Tamil Nadu. This industrial visit included 35 students and 3 faculties. The first industry visited the Pressmatic Engineers India Pvt Ltd in Coimbatore, Tamil Nadu on 19/04/2023. It is one of the leading manufacturer company of high-quality products/business services such as Electrical Stamping and Die-Cast Rotors, it was incorporated on 1/04/2008. This company is engaged in the manufacturing of electrical laminations and die-cast rotors. This industry's main products and services are Electrical Stamping and Die-cast rotors, Rotor Shafts, Rotor Blades, Brake rotors, and Alternator Rotors. On the same day, the second industry visited The Hindu Newspaper on LIC Road, Coimbatore Central, Tamil Nadu. This industry disclosed how to make a newspaper, how they get sufficient data sources, and present consumer purchasing behaviour. It is one of the leading newspapers in South India by its unique quality of papers, Data sources and clarity. On 20/04/2023, the team visited The Tea Factory & The Tea Museum in Doddabetta, Ooty, Tamil Nadu. The Tea Factory and Tea Museum is a great place to spend time and learnt about tea's evolution and process. The Tea Factory Museum in Ooty is spread across nearly an acre of land, all covered with emerald green tea plants. The Doddabetta Tea Factory in Ooty also offers beautiful views of the valley, and the towering mountain peaks surrounding it. The last industry visited The Chocolate Factory in Ooty, Tamil Nadu. It is also the vicinity of The Tea Factory. The Museum contains models describing the preparation of chocolates. Everyone will be given with wafer stick dipped in molten chocolate at the end. Varieties of chocolates are being exhibited and sold here. It also exports chocolates to neighbouring countries as an export commodity.
