HINDI AS A DISCIPLINE

Preamble

Hindi Language is found to be the subject highest spoken Language in the face of the earth by recent research (2005) done by Dr. Jayanthi Prasad Nautiyal. Today's world of Globalization and Technology has provided necessity to empower the students with required skills which will enable them to excel in this competitive world and get highest employment opportunity.

The Hindi language is very old, and has a direct line of evolution to Sanskrit. As such it is part of one of the oldest religious and literary traditions in the world - traditions that have influenced other religions and works of art, whether we realize it or not. As such Hindi is incredibly important in the historic development of the world's cultures, and well worth not just honouring, but studying. Anyone with an interest in world history or languages would do well to do a little bit of intense reading on the subject of Hindi.

'As per the research conducted by 'World Languages department' in New York, Hindi language stands third, just after English and Chinese, in the list of most widely spoken languages in the world. Hindi is used as a spoken language right from Nepal, Kabul-Kandahar (Afghanistan) till Dhaka (Bangladesh). Hindi is the commercial language of Mauritius and Fiji.

Nehru's thoughts have a deep impact on *Bharatiya* constitution. As per the constitution act/section 120, it had been decided that the parliamentary proceedings will take place in Hindi or English language for the first fifteen years, for convenience sake. A pledge was taken that, after 15 years, i.e. from 1965 onwards, all proceedings will happen in Hindi language. Several decades have passed since then, however Hindi language has still not attained status as '**National language**'.

Eligibility:

II PUC passes with Hindi as Second Language
