ACQUIRED SKILLS AND EXPERIENCE

Communication, working with people, attention to detail and an outstanding work ethics, knowledge about the subject combines developed skills, exposure, and training that helps me to do my current works more effectively and prepares for a teaching position. It typically involves working with students or groups to facilitate their learning. It increases confidence, allows identify our strengths, provides opportunities to network.

As a teacher I was able to create conducive learning environment that facilitate the development of the students. I was also able to perform the administrative tasks as part of the job.

I was able to critical thinking by practicing self-awareness at all times. Dedicated students often contribute more to class discussion and be more easy-going. But many students present challenges like conflicts and disruptions. Hence it boosted patience level in me. At that situation I was able to keep cool by maintain the balance between their own expectation and unique personality.

Communication skills is the most essential part in teaching field. One should be very good at physical and verbal as well as written communication.

As a teacher stand tall in the class smile often and make eye contact with students. It seems confident and kind.

Time management place a major role in classroom as we get particular time of period, we have to cover the topic and make understand students. I was able to develop a good conflict resolution ability with a display of good patience and active listening to students situations from each view point and come to a compromise and valid situation.

SUMMARY

I ASWATHY K.N. has started my internship in GURUDEV ARTS AND SCIENCE COLLEGE MATHIL, PAYYANUR KERALA from 18th August 2023 which ended on 18th September 2023. During this internship, I had the opportunity to develop and refine a range of essential teaching skills, which includes time management, leadership, critical thinking and effective communication. My responsibilities were extended beyond the classroom, had an opportunity to conduct a bridge course on Statistics. This extensive experience has contributed significantly to my growth as a teacher, enabling me to create a conducive learning environment for the students at GURUDEV ARTS AND SCIENCE COLLEGE.
