Action Taken Report- 2023-24

Feedback report for the year 2023-24

1. The library has procured an additional set of books in core subjects like Computational Mathematics, Complex Analysis, and other relevant fields. The process is ongoing, with new titles being added each quarter
2. The library now offers more e-books and research papers through new online subscriptions. Faculty regularly update recommended books to ensure access to the latest resources.
3. A field visit to ISRO was organized, where students toured facilities, interacted with scientists, and learned about satellite development and space missions. This provided valuable insight into real-world applications of their academic knowledge in space technology.
4. Regular workshops, guest lecturer's seminars have been organized to introduce students to emerging research areas and encouraging them to take up projects beyond the curriculum.
5. Career opportunities in higher studies and employability opportunities in industries.
