

2.3 Teaching- Learning Process

2.3.1 Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

Response:

The institution has adopted several measures to promote the concept of active learning by converting the conventional classrooms into a liberated/democratic/discussion rooms, providing more space for the learners, transforming classroom lectures into resource centers, thus bringing about a paradigm shift from teacher-centric instruction to student-centric learning.

Participative learning.

The need of the hour is to convert passive learning into participatory learning and this is achieved by motivating the learners to involve actively in the learning process. Participative Learning: is a way of organizing the classroom that motivates learners to participate in the act of teaching, a peer-based learning process. The learning is focused on increased student participation and is basically student centered. The need of the hour is to convert passive learning into participatory learning and this is achieved by motivating the learners to involve actively in the learning process. The learning is focused on increased student participation under the guidance of the teachers.

4. Department of PG Studies & Research in Chemistry organized a quiz Competition under social responsibility series on 29th and 30th April 2024. Students from various departments have participated. A total 12 students have actively participated in the competition. On 29th April 6 teams have participated in the first round of the quiz. In the first round the MCQ questions were given. Where everyone was qualified for the second round. The First round is conducted by Ms. Spurthi and Ms. Bindiya of the hostel department. On 30th April the final round was conducted where we had kept it basically as a three set of rounds in the first set we had a ?BUZZ? round where everyone need to raise their hands to answer the question that is displayed on the screen. In the second set the Vi-track? where the participants have to observe the video and write their opinion, give solutions related to the video displayed. In the third set we had NIVARANAM? as our final round where each team will be given a image related to the environmental disasters where they have to speak up related to its effects, cause etc.. Based on which their presenting skills, creative ideas was noted. Second round is conducted by Ms. Anagha, Ms. Bhoomika and Ms. Madhura of the host department. Overall program is co-ordinated by Dr. Narayana Hebbar, Assistant Professor, Department of PG
