(Autonomous)

(Re-Accredited by NAAC at 'A' Grade with CGPA 3.61 out of 4)

DEPARTMENT OF P.G. STUDIES IN COMMERCE

Syllabus of

M.Com

(INSURANCE AND BANK MANAGEMENT)

**(CHOICE BASED CREDIT SYSTEM SEMESTER
SCHEME)**

2019-20 onwards

Approved by the BOS meeting held on 19th Aug. 2020

Approved by the Academic Council meeting held on 10-11-2020

Preamble:

The University Grants Commission, New Delhi, has directed all Universities in the country to implement the Choice based Credit system (CBCS, semester scheme) in both under –and post-graduate programme and has issued a series of guidelines with regard to this. The higher Educational Council, Government of Karnataka has considered the implementation of Choice Based Credit System. The Choice Based Credit System enables the degrees of Mangalore University to be on par with the global standards.

The Post Graduate Board of Studies in Commerce has prepared the revised Syllabus for M.Com (Insurance and Bank Management) (Choice Based Credit System) since 2016 and revised the syllabus on 31.08.2019 as per the guidelines suggested by Mangalore University and University Grants Commission, New Delhi. The revised syllabus has a course pattern which includes Hard Core, Soft Core and open elective courses with 92 credits for the entire Programme. The CBCS course matrix clearly defines the Hard core, soft core, open elective and specialization papers being offered in M.Com (IBM) spread over IV Semester.

Faculty of PG Studies in Commerce (Insurance and Bank Management): PGIBM041

Programme Specific Outcomes:

PSO1: Deliver a value based commitment in the core areas of Insurance and banking operations and adapts to changing business environments.

***Open elective six credits not included for CGPA**

Note:

- [1]. **Soft core papers in the I semester.** From the available soft core papers any three soft core papers shall be selected by the students at the time of commencement of 1st semester. The department will announce three soft core papers offered by the department at the time of beginning of the 1st semester depending upon demand for the soft core papers. The minimum number of student opting for the soft core course should be 10.
- [2]. **Soft core courses in the 2nd semester.** From the available soft core papers any two soft core papers shall be selected by the students at the time of commencement of II semester. The department will announce two soft core papers offered by the department at the time of beginning of the II semester depending upon the demand for the soft core papers. The minimum number of student opting for the soft core course should be 10.
- [3]. **Soft core courses in the 3rd semester.** From the available soft core papers any two soft core papers shall be selected by the students at the time of commencement of III semester. The department will announce two soft core papers offered by the department at the time of beginning of the III semester depending upon the demand for the soft core papers. The minimum number of student opting for the soft core course should be 10.
- [4]. **Soft core courses in the 4th semester.** From the available soft core papers any two soft core papers shall be selected by the students at the time of commencement of IV semester. The department will announce two soft core papers offered by the department at the time of beginning of the IV semester depending upon the demand for the soft core papers. The minimum number of student opting for the soft core course should be 10.
- [5]. **Project Work:** The Student in the IV Semester shall register for project work it is compulsory & it is a hard core paper. The workload for project work is one contact hour for student per week for a student. The student will do field work, data collection & library work in the remaining 3 credits hours per week.
- [6]. **Internal Assessment marks:** It should be given on continuous assessment basis consists of internal tests, seminar, assignment, punctuality and class performance of the students.

FIRST SEMESTER

Sl No	Subject Code	Name of the Subject
01	IBHC 1.1	Accounting Theory and Practice
02	IBHC 1.2	Business Research Analytics
03	IBSC 1.3	Indian Banking System
04	IBSC 1.4	Management of General Insurance
05	IBSC 1.5	Business Ethics and Corporate Governance
06	IBSC 1.6	Business Industry and Commerce

IBHC 1.1: ACCOUNTING THEORY AND PRACTICE

Learning Objectives:

- To make the students to understand the basic accounting theories, principles and concepts.
- To make the students to understand the concepts of forensic and social accounting.
- To make the students to prepare the final accounts of the company.
- To enable the students to apply various methods of inflation accounting for price level changes.
- To enable the students to prepare the liquidator's statement.

Course Outcomes:

CO1: Exhibit knowledge about the basic accounting principles and concepts of accounting.

CO2: Read and analyse the financial statements of a firm.

CO3: Express enhanced understanding about the role of underwriting in capital market.

CO4: Understand the concepts and accounting adjustments for bonus and right issue.

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Introduction to Accounting: Evolution of Accounting-Accounting as an information system –users of accounting information- Accounting Concepts, and Principles, Accounting theory- classification-methodology in accounting theory, Income concept- Different concepts of income measurement, Assets, Characteristics of Assets-Types of Assets-Objectives of Asset valuation-Asset valuation and income determination models, Nature of liabilities-characteristics-classification of liabilities, Equity-characteristics-theories of equity.(12 Hrs)

Unit II: Forensic and social Accounting: Meaning of forensic accounting- History- Role- Functional areas- Essentials- Forensic accounting in India, Social Accounting- Benefits-Scope- Approaches- Ramanathan's proposals for social accounting- Social Benefits- Social Corporate Reporting in India. (12 Hrs)

Unit III: Final Accounts of Companies: Legal provisions relating to maintenance of annual accounts by corporate entities in India- provisions and computation of managerial remuneration, transfer of profits to reserves and payment of dividend out of reserve rules; preparation of vertical forms of financial statements of corporate entities- Bonus shares- Meaning-Benefits-Accounting treatment. (12 Hrs)

IBHC 1.2 BUSINESS RESEARCH ANALYTICS

Learning Objectives:

- To make the students to understand the basic concepts in business research and data analytics.
- To enable the students to understand the procedure for hypothesis testing.
- To enable the students to apply the various parametric test for hypothesis testing.
- To enable the students to apply the various non-parametric test for hypothesis testing.
- To enable the students to draft the research report.

Course Outcomes:

The students will be able to -

CO1: Design and apply various methods of data collection.

CO2: Construct the hypothesis for research problem.

CO3: Apply the parametric test for hypothesis testing.

CO4: Apply the non- parametric test for hypothesis testing

CO5: Prepare and summarize the research report

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Business research and data analytics--Introduction--approaches--Research Process--Research Design-- Review of literature-- Sampling Design-- Methods of Data Collection. Data analytics-- Processing and analysis of data--types of data analytics (10 Hrs)

Unit II: Estimation Theory and Hypothesis Testing-- Types of Hypothesis-- Two Tailed and One tailed test of Hypothesis-- Procedure for hypothesis testing-- Measurement and Scaling Techniques-- Measurement of central tendency (10 Hrs)

Unit III: Parametric Test-- Introduction to parametric test – Types of Parametric test: t test--paired t test-- Z Test-- F-Statistic-- Analysis of Variance (ANOVA). (10 Hrs)

Unit IV:Non- Parametric Test-Introduction- U Test (Wilcoxon- Mean- Whitney Test)-chi square test- Correlation- Regression- Index Numbers (Consumer Price Index)- Use of Computer in Research- (SPSS, Excel, R Studio) (10 Hrs)

Unit V:Research Report- Introduction - Principles of good research report- Steps in writing Research report- Technical Report- Mechanism of writing a research report. (8 Hrs)

IBHC 2.2 ACCOUNTING STANDARDS AND FINANCIAL REPORTING

Learning Objectives:

- To make the students to understand the accounting standards.
- To make the students to understand the theoretical aspects of IAS 1-20.
- To make the students to understand the theoretical aspects of IAS 22-32.
- To enable the students to understand the theoretical and practical aspects of IAS 2 & 3.
- To make the students to understand the concepts of financial reporting.

Course Outcomes: The students will be able to-

CO1: Understand the conceptual framework of accounting standards.

CO2: Understand the theoretical aspects of IAS 1-20.

CO3: Understand the theoretical aspects of IAS 22-32.

CO4: Prepare the inventory valuation and cash flow statement as per IAS 2 and 3.

CO5: Differentiate the financial reporting practices in global context.

Pedagogy: This course includes Class lectures, Assignments, Group Discussions, Seminars, and Case Studies

Unit I: Accounting Standards-Introduction- Objectives- Benefits of accounting standards- Types Standard setting agencies and process- Difficulties in Standard setting- Standard setting in India- IASB- Reasons for slow progress made by ASB in India. IFRS- Need – Arguments for harmonisation and global convergence- IASB-IASB and Harmonisation- Benefits of Convergence- Obstacles in convergence and harmonisation-Suggestion for increased convergence and harmonisation. (10 Hrs)

Unit II: Indian Accounting Standards (PART I- Theory only)

AS-1: Disclosure of accounting policies- AS-4: Contingencies and events occurring after balance sheet date – AS-5: Net profit or loss for the period, prior period items and changes in accounting policies- AS-6: Depreciation Accounting – AS-7: Construction Contracts- AS-9: Revenue Recognition – AS-10: Accounting for Fixed assets. AS-11: The effects of changes in foreign exchange rates – AS-12: Accounting for government grants – AS-13: Accounting for investments – AS-14: Accounting for amalgamations – AS-15: Employee benefits – AS-16:

Borrowing costs- AS-17: Segment reporting – AS-18: Related party disclosures – AS-20: Earning per share (12 Hrs)

Unit III: Indian Accounting Standards (PART II- Theory only)

AS-22: Accounting for taxes on income – AS-23: Accounting for investments in associates in consolidated financial statements – AS-24 : Discontinuing operations- AS-27: Financial reporting of interests in joint ventures – AS-28: Impairment of assets – AS-29: Provisions, Contingent liabilities and contingent assets; AS-30: Financial Instruments: Recognition and Measurement; AS-31: Financial Instruments: Presentation – AS-32: Financial Instruments: Disclosures. (8 Hrs)

Unit IV: Inventory and Cash Valuation: Inventory (AS-2) Concept-Need for inventory valuation – Inventory Valuation methods – Cash Flow Statement- Objectives; Sources and Application; Preparation of Statement (AS-3). (12 Hrs)

Unit V: Financial Reporting-Concepts- Objectives- Users of financial Reporting-General purpose of financial reporting- Qualitative characteristics - Benefits- Conceptual frame work- IASB Conceptual frame work- Developments on Financial Reporting- True Blood Report (USA). Corporate Report (UK), Stamp Report (Canada)- Interim Reporting in Indian Corporate- Need- SEBI Guidelines- Disclosure(AS-25)- Problems in Interim reporting. (8 Hrs)

IBSC 2.5 FINANCIAL SERVICES AND INSTITUTIONS

Learning Objectives:

- To enable the students to understand the concepts of financial system
- To enable the students to know the structure of financial market.
- To enable the students to understand the concepts and functions of special financial institutions.
- To enable the students to know the functions of merchant banking and credit rating agencies.
- To enable the students to know the functions of international financial institutions.

Course Outcomes:

The students will be able to-

CO1: Understand the concepts of financial system.

CO2: Understand the operational structure of financial markets

CO3: Evaluate the functions of special financial institutions.

CO4: Analyse the functions of merchant banking and credit rating agencies.

CO5: Evaluate the concepts and functions of international financial institutions.

Pedagogy: This course includes class lectures, discussion of issues and concepts as per the lesson plan by students, assignments, practical exercises, group discussions, seminars, and applications with examples

Unit -I: Indian Financial System:-Nature and role of financial system, financial system and economic development –Components of Indian Financial system, - Recent trends. (8 Hrs)

Unit II: Financial Markets– Constituents of Financial Markets, Money market – meaning, functions, Money market instruments, call money market, treasury bills, commercial bills, trade bills, commercial papers and certificates of Deposit. Capital Market - Primary and Secondary markets – Functions of Primary and secondary markets, SEBI guidelines on investor protection. (10 Hrs)

Unit-III:Special Financial Institutions – Concept; functions, project identification –

promotion Project appraisal and Evaluation – Procedure of lending – Supervision and follow up Entrepreneurship Development Programmes — Regional imbalance - causes and consequences- Government policy – measures for Balanced development – Package measures of Development Banks – Recent trends. A brief study of development banks like IFCI –IDBI –ICICI-LIC and GIC –UTI – SFC’s/SIDC’s/SIIC’s–IRBI – SIDBI – Recent Trends. (10 Hrs)

Unit-IV: Merchant Banking and credit rating: concept- Functions, Lead Managers, underwriters to an issue – Bankers to an issue, Debenture Trustees, Portfolio Managers, - Regulation of Merchant Banking activities – Credit Rating agencies – Rating Methodologies and processes- Rating symbols- Recent Trends. (10 Hrs)

Unit V: International financial institutions –need- objective and formation. Role of international financial Institutions in Global business era-Risks - IMF Management and organization of IMF Functions of IMF; advantages of international monetary fund& performance- organization structure. India and IMF, advantage to India. World Bank-Impact of World Bank on developing countries. Asian Development Bank- Function- Asian Development Bank and India. BRICS development Bank- Objectives- Organisation structure- Functions

(10 Hrs)

IBSC 2.6 MANAGEMENT OF LIFE INSURANCE

Learning objectives:

- To enable the students to understand the basic concepts of life insurance
- To make the students to know the ULIP
- To make the students to know the underwriting process and new development in insurance sector
- To make the students to know the calculations of premium, paid-up and surrender value
- To make the students to know the functions of insurance and regulatory bodies

Course Outcomes:

The students will be able to

CO1: Understand the basic concepts of life insurance

CO2: Analyse the ULIP products

CO3: Understand the underwriting process and new development in insurance sector

CO4: Calculate the premium, paid-up and surrender value of the insurance.

CO5: Understand the functions of insurance and regulatory bodies

Pedagogy: This course includes class lectures, discussion of issues and concepts as per the lesson plan by students, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Introduction to Life Insurance: Principles of Life Insurance; Life Insurance as Economic and Social Security Tool; Documents of Life Insurance; Nomination-Endorsement- Assignment; Classification of Life Insurance Policies; Objectives of Assurance; Advantages of Life Insurance

(10 Hrs).

Unit II: ULIP- Concept of ULIP; Features of ULIP- Sum Assured- Portfolio Investment- ULIP Expenses- Premium Holiday- Top Up Premium- Lock in Periods- Withdrawal from ULIP- Settlement Options- Date of Unitisation- Switching Option- Tax Benefits- Riders.

Annuities: Meaning; Types of Annuities; Period of Benefits- Fixed Period- Life time; Number of Life Covered- Single Life- Joint Life- Group.

Micro Insurance: Concept; Role of Micro Insurance in Poverty Alleviation; Micro Insurance Delivery Models- The Partners- Agent Model- Mutual Insurance Model- Community Based Organisation Model- All in One Insurance Model- Supplier Model. Case- Sampoorna Suraksha- Chaitanya (10 Hrs)

Unit III: Actuary – Underwriting and Trends in Life Insurance Sector: Actuary- Qualification of Actuary; Role and Duties of an Actuary. Underwriting – Underwriter; Underwriting Process; Factors and Document of Underwriting. Bacassurance; Insurance Marketing Channels- Trends and Innovations in Insurance Sector. (10 Hrs)

Unit IV: Premium, Paid Up and Surrender Value: Premium Concept; Types of Premium; Factors Considered for Premium Calculation; Premium Calculation- Illustration - Paid up and Surrender Value: Steps in Calculation of Paid Up and Surrender Value Calculation; Bonus and Loans.Claim Management- Procedure for Life Insurance Claim Settlement- Maturity- Survival and Death Claim.(10 Hrs)

Unit V: Insurance and Regulatory Bodies

Tariff Advisory Committee; Role and Functions of Tariff Advisory Committee; Registration of Insurance Company - Procedure for Obtaining Registration Certificate - Renewal of Registration - Supervision and cancellation of Registration.

Consumer Protection Act; IRDA Regulations for Licensing Insurance Agents; Tax Aspects of Insurance- Deductions Under Section 80 (C), Exemptions Under Section 10 (10 D) Deductions Under 80 CCC and other Tax Provisions. E- Insurance(8Hrs)

IBSC 2.7 MATERIAL MANAGEMENT

Learning objectives:

- To enable the students to understand the basic concepts of material management
- To make the students to know the process of purchasing & supply chain management
- To make the students to know the concepts of inventory management and inventory control
- To make the students to know the accounting aspects of inventory
- To make the students to know the recent development in material management

Course Outcomes:

The students will be able to

CO1: Understand the basic concepts of material management

CO2: Analyse the process of purchasing & supply chain management

CO3: Understand the underwriting concepts of inventory management and inventory control

CO4: Understand the accounting aspects of inventory.

CO5: Understand the recent developments in material management

Pedagogy: This course includes Class lectures, Assignments, Practical exercises, Group Discussions, Seminars, and Applications with examples, Case Studies.

Unit I: Material Management: Introduction, Objectives, Functions, Importance, and Role of Material Management in business – Integrated Materials Management – Material Planning – Factors affecting material planning – Techniques of material planning – MRP – Past Consumption Analysis. (10hr)

Unit II: Purchasing & Supply Chain Management: Fundamentals of Purchasing - Role and Importance of Purchasing - Evolution and Development of Purchasing - Purchasing as a Boundary Spanning Function - Purchasing Position within the Organizational Structure - Purchase Procedure - Pre-Purchase, Purchase, and Post-Purchase stages – The Purchasing Process – Role of Negotiation in Purchasing – Supplier Development and Strategic Sourcing. (10hr)

Unit III: Inventory Management and Inventory Control :Types of Inventory - Costs of Inventory - Inventory Investment -Function of Inventory within a Firm - Factors leading to inventory waste - Approaches for controlling Inventory Investment.

Fundamentals of Stores Keeping - Importance of Stock Levels and Order Quantities - Selective Inventory Control Techniques - Physical Inventory and Warehouse Management - Physical Distribution and Control (10hr)

Unit IV: Accounting Aspects of Inventory: Finalizing the Purchase Price of materials – Preparation of Stores Ledger (FIFO, LIFO, Simple Average, Weighted Average) – Identification of Different Stock Levels and Economic Ordering Quantity – Selective Inventory Control Techniques. (Includes Practical Problems) Accounting software’s available for Inventory Management. (10hr)

Unit V: Special Areas in Materials Management: Just-in-Time Manufacturing – Purchasing Research – Value Analysis –Importance of IT in Materials Management – Import Purchasing – Performance Measurement and Evaluation – Importance of Quality. (08hr)

THIRD SEMESTER

SI No	Subject Code	Name of the Subject
01	IBOE 3.1	Open Elective-II Banking Practices
		Project Management
		Services Marketing
02	IBHC 3.2	Accounting for Financial Institutions
03	IBHC 3.3	Derivatives Management
04	IBSC 3.4	Rural Banking and Micro Finance
05	IBSC 3.5	Strategic Marketing Management
06	IBSC 3.6	Organizational Culture and Behaviour

I BOE 3. BANKING PRACTICES

Learning objective:

- To enable the students to understand the structure of Indian banking system.
- To enable the students to know the organisation structure and functions of commercial banks
- To enable the students to identify technological application in banking transactions.
- To enable the students to know the significance of career in Banks

Course Outcomes:

The students will be able to-

CO1: Understand structure of Indian banking system

CO2: Evaluate functions of Commercial banks.

CO3: Apply technological application in banking transactions

CO4: Analyse the significance of career in Banks

Pedagogy: This course includes Class lectures, Assignments, Practical exercises, Group Discussions, Seminars, and Applications with examples, Case Studies.

Unit I: Introduction to Banks: Meaning of Banks- Definition- Evolution of Indian Banks- Banking Regulation Act of 1949- Important provisions- Indian Banking Structure- RBI- Structure and governance of RBI- Functions- Methods of Credit Control. (12 Hrs)

Unit II: Commercial Banks: Classification- Organisation structure of Scheduled commercial banks- Primary and Secondary functions- Principles of sound lending- Credit Creation- Customer of a Bank- Relationship between banker and customer (12Hrs)

Unit III: New technology in Banking – Bank computerization – ATMs – ECS- EFT-NEFT – RTGS – SWIFT – Electronic cheques, Debit cards, credit cards, smart cards – Internet banking – advantages and disadvantages, Mobile banking, Core banking services, risks in E-banking (08 Hrs)

Unit IV: Career in banks- Choosing career in bank- Agencies involved in Recruitment. Test pattern – How to crack the bank exams. Practice tests.(04Hrs)

IBHC 3.2 ACCOUNTING FOR FINANCIAL INSTITUTIONS

Learning Objectives:

- To make the students to know the process of final account of banking companies
- To make the students to know the process of final accounts of insurance companies
- To make the students to know the calculation process of loss claims for insurance
- To make the students to know the basic concepts of human resource accounting
- To make the students to know the evaluation process of lease financing

Course Outcomes:

The students will be able to -

CO1: Prepare the final accounts of banking companies

CO2: Prepare the final accounts of insurance companies

CO3: Calculate the claims for insurance settlement

CO4: Value the human resource as per the accounting perspective.

CO5: Evaluate the lease financing for decision making

Pedagogy: This course includes Class lectures, Assignments, Group Discussions, Seminars, and Case Studies

Unit I: Banking Accounts- Preparation and presentation of financial statements of Banks - Legal requirements- Prudential norms on income recognition, Asset classification, capital adequacy norms, risk adjusted, assets and off-balance sheet items and provisioning. (15hr)

Unit II: Accounts of Insurance Companies- Introduction, Life Insurance, Financial Statements of Life Insurance, Bonus- Premium calculation- Insurance claims. IRDA regulations regarding preparations of financial statements, Accounts of General Insurance Companies, Accounting treatment- Revenue account, Profit and loss account and Balance Sheet. (15hr)

Unit III: Insurance Claims: Meaning, Loss of stock, Average clause, Consequential loss or profit (10 hr)

Unit IV: Human Asset Accounting: Objectives–importance-advantages-limitations- Valuation models –Historical cost approach– Replacement Cost approach –opportunity cost

approach-Present value approach, Lev and Schwartz Model-Valuation on a group basis – Evaluation of the Valuation Models. (10 Hrs)

Unit V: Lease Financing: Concepts of leasing – Forms of lease financing – Economics of leasing – Financial evaluation of leases from lessee's and lessor's point of view. (10hrs)

IBHC 3.3 DERIVATIVES MANAGEMENT

Learning objectives:

- To make the students to know the basic concepts of derivatives
- To make the students to know the mechanism of forward contract
- To make the students to know the mechanism of future contract
- To make the students to know the mechanism of option contract
- To make the students to know the mechanism of swap contract

Course Outcomes:

The students will be able to

CO1: Understand the basic concept of derivatives

CO2: Calculate the value of forward contracts

CO3: Calculate the value of future contract

CO4: Compute the value of option contract

CO5: Analyse the value of swap contract

Pedagogy: This course includes Class lectures, Assignments, Group Discussions, Seminars, and Case Studies

Unit I: Derivatives- Meaning- Definition- Characteristics- Evolution- Classification- Derivatives in India- Regulations for Derivatives Trading- Functions of Derivatives Markets- Derivatives Markets Growth and Development-Factors contributing to the growth of derivatives-Traders in derivatives markets (10 Hrs)

Unit II: Forward Contracts- Classification- Forward contract mechanism- Users- Features- Advantages- Disadvantages- Valuation of Forward contract- Pricing of forward contract (10 Hrs)

Unit III: Futures Contract: - Characteristics- Types of future contracts- Evolution- Mechanics of Future contracts- Future markets in India- Margin requirements in Future Trading- Settlement of future position- Participants in Future Markets- Distinguishing Forwards and Futures- Approaches to pricing Future contract (15 Hrs)

Unit IV: Option Contracts: Options: Types of options; Options trading; Margins; Valuation of options; Binomial Option; Pricing Modal; Black -Scholes model, for Call Option; Valuation of put Options; Index options; option market exchange traded options, over- the counter options, quotes trading, margins, clearing, regulation and taxations; Warrants and convertibles

(15 Hrs)

Unit V: SWAPS: Mechanics of interest rate swaps, valuation of interest rate, swaps currency swaps and its valuation credit risk and swap

(10 Hrs)

2. John C. Hull, SankarshanBasu, Options, Futures and other Derivatives, Pearson Education, Noida 2010

IBSC 3.4. MICRO-FINANCE

Learning Objectives:

- To enable the students to understand the basic concepts of micro finance
- To enable the students to understand the models of microfinance and delivery methods
- To enable the students to understand the concepts of women empowerment through micro finance.
- To enable the students to know the process of financial inclusion through micro-finance
- To enable the students to know the significance of rural development through microfinance

Course Outcomes:

The students will be able to

CO1: Understand the basic concepts of micro finance

CO2: Understand the models of microfinance and delivery methods

CO3: Understand the concepts of women empowerment through micro finance.

CO4: Understand the process of financial inclusion through micro-finance

CO5: Understand the process of micro-finance in rural development.

Unit I: Microfinance Perspectives: Poverty - its form and extent- financial needs of the poor-role of credit in poverty alleviation-state intervention in rural credit in India-poverty eradication measures of central and state governments-emergence of microfinance-introduction to microfinance-definition- meaning-scope-importance-assumptions of microfinance-lessons from international experience. (10 Hrs)

Unit II: Models of Microfinance and Delivery Methods: Models of Microfinance across the world-microfinance delivery methodologies-structures of intermediation for microfinance in India- types of MFIs-SHG and MFI models- SHG Bank Linkage Program-Joint Liability groups- MFI approach- Bank Partnership model-Banking correspondent model- Penetration of Microfinance-Constraints in mainstreaming. (10 Hrs)

Unit III: Micro Finance and Women Empowerment: Meaning, concept, nature, objectives & target of women empowerment, reality of women empowerment in the era of

globalization- Determinants of women empowerment –role of SHGs in women empowerment. (10 Hrs)

Unit IV: Microfinance and Financial Inclusion: Meaning of financial inclusion- extent of financial inclusion-need for financial inclusion- present reach of banking-initiatives of RBI and NABARD- Role of microfinance in financial inclusion and recent trends. (10 Hrs)

Unit V: Micro Finance and Rural Development: Micro Credit Institutions: Non-Government Organization (NGO)Prospects of Micro Finance: RBI Role in Regulating: Bank's Role in Micro Finance: Growth of Micro Finance: Development of Micro Finance: Credit Plans: Credit Schemes: Social Banking.

(8 Hrs)

IBSC 3.5 STRATEIC MARKETING MANAGEMENT

Learning Objectives:

- To enable the students to understand the basic conceptual framework of marketing management.
- To enable the students to understand the marketing strategies formulated by the business organizations.
- To assist the students to know the dynamism of product and pricing techniques.
- To enable the students to understand the marketing communication and logistics.
- To enable the students to discuss on contemporary issues in marketing.

Course Outcomes:

The students will be able to-

CO1: Demonstrate the basic concepts of marketing management.

CO2: Develop the marketing strategies based on global trends.

CO3: Formulate an appropriate pricing strategy in a competitive environment.

CO4: Identify the opportunities to optimize marketing communication and logistics.

CO5: Analyse and address the contemporary issues in marketing.

Pedagogy: This course includes class lectures, discussion of issues and concepts as per the lesson plan by students, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Marketing Management- Introduction- Nature and Scope of Marketing; Evolution of Philosophies of Marketing-Marketing Mix; Functions of Marketing Management; Concept of Marketing; Marketing Environment; Marketing Segmentation- Targeting and Positioning; Consumer Buying Behaviour; Service Marketing **(10 Hrs)**

Unit II: Marketing Strategies- Nature of Marketing Environment- Market Analysis- SWOT Analysis- BCG Matrix -Marketing Audit. The Value Delivery Process; Value Chain; Corporate and Division Strategic Planning; Business Unit Strategic Planning; Competitive Advantage; Michael Porter's Five Interactive Competitive Forces; Competitive Strategies for Market Leaders- Market Challengers- Market Followers and Market Niche Strategies.

(10 hrs)

Unit III: Product and Pricing

Product- Five Levels of Product Description; Product Classification; Components of a Product; Product Market Strategies; New Product Development; Product Related Strategies- Brand- Packaging and Labelling- Product Warranty- Service Facilities.

Price- Importance of Pricing; Pricing Objectives; Model of Pricing Process; Pricing Strategy- New Product Pricing- Psychological Pricing Promotional Pricing; Pricing Method. (10 Hrs)

Unit IV: Managing Communication and Logistics

Communication: Scope of Market Communication; Communication Model- The Linear Model of Communication- Two Step of Communication- The Interpretation Model of Communication; Marketing Communication Mix- Advertising- Sales Promotion- Direct Marketing- Public Relation and Personal Selling; Information and Emotional Appeal; The Marketing Communication Industry.

Wholesaling- Functions; Major Wholesaler Types; Trends in Wholesaling. Retailing- Types of Retailers; Four Levels of Retail Services; Non Store Retailing; Market Decisions; Private Labels. Market Logistics-Steps in Market Logistic Planning; Market Logistics Decisions

(10 Hrs)

Unit V: Contemporary Marketing Practice

Digital Marketing- Types of Digital Marketing Activities; Structural Properties of Digital Resources; Ethics – Ethics and Promotion; Ethics and Product; Pricing and Ethics; Marketing Research.

(8 Hrs)

IBSC 3.6 ORGANISATIONAL CULTURE AND BEHAVIOR

Learning Objective:

- To enable the students to understand the basic conceptual framework of organisation culture and behaviour
- To enable the students to understand how the employees individual behaviour will affect in organisation
- To enable the students to understand the attitude and behaviour of employees in changing business environment
- To enable the students to understand the motivation theories.
- To enable the students to know the group behavior and leadership style

Course Outcomes:

The students will be able to-

CO1: Demonstrate the basic concepts of organisation culture and behaviour

CO2: Analyse the employee's individual behaviour will affect in organisation

CO3: Apply attitude and behaviour of employees in changing business environment.

CO4: Apply motivation theories.

CO5: Analyse group behaviour and leadership style.

Pedagogy: This course includes Class lectures, Assignments, Practical exercises, Group Discussions, Seminars, and Applications with examples, Case Studies.

Unit I: Introduction: Organization culture and climate- Factors affecting organizational climate – Importance -Organizational change – Importance — the change process – Resistance to change – Managing change. Organizational Behaviour: Evolution of Organizational Behaviour – Concept of Organizational Behaviour – Tools for learning Behaviour in organizations –Challenges and opportunities for organizational Behaviour.

(10hr)

Unit II: Individual Behavior: Introduction-Characteristics – traits and determinants of personality -job fit theory- Personality and emotions – Perceptions-Factors influencing perception – Perception and Individual decision making- Impression management. (10hr)

Unit III: Attitude and Values: Definition- Theories of learning– Value and Attitudes– Sources and types of values and attitudes– Changing Employees Attitudes– Job satisfaction, job involvement and organizational commitment. (08hr)

Unit IV: Motivation Theories and Applications: Theory X and Y; Maslow’s Hierarchy of Needs; Herzberg’s Two Factor theory; Vroom’s Expectancy Theory; Equity Theory; Porter Lawler Model; Application of Motivation Theories. (10hr)

Unit V: Group Behavior and Leadership: Concept of Group- Stages of group development – Group Behaviour Model- Group Decision Making- Teams Vs Groups- Team Effectiveness Model– Interpersonal Relations- Johari Windows– Transactional Analysis; Conflict- Conflict Process. Leadership Traits– Behavioral and Contingency Theories; Recent Approaches to Leadership-Transformational Leadership. Leadership and Power; organizational politics. (10hr)

FOURTH SEMESTER

SI No	Subject Code	Name of the Subject
01	IBHC 4.1	Budgeting and Cost Control
02	IBHC 4.2	Portfolio Management
03	IBSC 4.3	Risk Management
04	IBSC 4.4	Auditing and Assurance
05	IBSC 4.5	Global Financial Market and Institutions
06	IBHC 4.6	Project Work

IBHC 4.1 BUDGETING AND COST CONTROL

Learning Objective:

- To enable the students to prepare the budgets for decision making
- To enable the students to understand the marginal costing techniques
- To enable the students to understand the standard costing techniques
- To enable the students to know the capital budgeting techniques
- To make the students to understand the zero based budgeting

Course Outcome:

The students will be able to

CO1: Prepare the financial budgets

CO2: Analysis the marginal costing through different techniques

CO3: Calculate the standard costing and analysis of variance

CO4: Apply capital budgeting techniques for long term financial decisions

CO5: Apply the zero based budgeting for decision making

Pedagogy: This course includes Class lectures, Assignments, Practical exercises, Group Discussions, Seminars, and Applications with examples, Case Studies.

Unit I: Budget and budgetary control: Concept-objectives and functions- Essentials - Process - Classification - Limitations -flexible budget- Preparation of:- Sales, Production, Cost of production- Labour,Overhead- Master budget- Advantages and Limitations Budget report- -Preparation of cash budget-Methods of Cash budget- Balance sheet method, receipts and payments method, profit cash forecast method (10hr)

Unit II: Marginal Costing and Profit planning: Concept- difference between Absorption costing and Marginal Costing- CVP analysis-Break Even Analysis-Types-Break even Chart- Forms of Breakeven chart – Practical application of marginal costing- Profit planning- Selection of suitable sales mix- - Pricing of product-problem of key factor- make or buy decision- operate or shut down decision. (15hr)

Unit III: Standard Costing and Variance analysis: Concept- Advantages- Limitations- budgetary control and standard costing- Analysis of variance- Material variance- Labour variance- Overhead variance. (10hr)

Unit IV: Long Term Investment Decisions: Capital Budgeting- Concept- importance - process Evaluation-Techniques –Traditional Methods-Modern methods-Capital rationing- Mutually exclusive project-Risk Analysis in Capital Budgeting: Relationship between risk and returns -Techniques: Risk Adjusted Discount Rate -Certainty Equivalent Coefficient - Sensitivity Analysis –Probability Assignment -Standard Deviation -Coefficient of Variation - Decision Tree Analysis (15hr)

Unit V: Zero Base Budgeting: Introduction - Zero Base Budgeting- Process -Advantages - Problems in Traditional Budgeting -Difference between Traditional Budgeting and Zero Base Budgeting -Programme Budgeting-Performance Budgeting -Distinction between Programme Budgeting and Performance Budgeting -Participative Budgeting (10hr)

IBHC 4.2 PORTFOLIO MANAGEMENT

Learning Objective:

- To make the students to know the basic concepts in portfolio management
- To enable the students to understand the portfolio selection process
- To enable the students to know the CAPM model
- To enable the students to know the factor models and arbitrage theories
- To enable the students to know the portfolio performance evaluation models

Course Outcome:

The students will be able to

CO1: Calculate the risk and return a portfolio

CO2: Construct the optimal portfolio

CO3: Apply the CAPM for the evaluation of portfolios

CO4: Apply the factors models and APT for security valuations

CO5: Evaluate the portfolio performance

Pedagogy: This course includes Class lectures, Assignments, Practical exercises, Group Discussions, Seminars, and Applications with examples, Case Studies.

Unit I: Portfolio Management- Meaning– Importance–Objectives–Phases of portfolio management. Portfolio Analysis: Estimating rate of return– Risk of portfolio returns– Effects of combining securities/diversification– Portfolios with more than two securities–Risk-Return calculation of portfolio with more than two securities. (07hrs)

Unit II: Portfolio Selection: Feasible set of portfolios in Markowitz model- Selection of optimal portfolio– Limitation of Markowitz model– Single index model– Measuring risk– return under single index model–Sharpe optimisation solution. (15hr)

Unit III: Capital Market Theory: CAPM: Assumptions – Efficient frontier with riskless lending and borrowing– CML– SML– Pricing of securities with CAPM- Relaxing Assumptions: Differential lending and Borrowing Rates – Zero-Beta- Model – Transaction Cost– Heterogeneous expectations and planning period – Empirical test of CAPM (15hr)

Unit IV: Factor Models and Arbitrage Pricing Theory: Arbitrage Pricing Theory– APT vs CAPM – Security valuation with APT– Empirical tests of the APT– Multifactor model and risk estimation– Multi factor model in practice: Macroeconomic based risk factor model– Microeconomic based risk factor model (10hr)

Unit V: Portfolio Performance Evaluation and Portfolio Revision: Portfolio Revision: Need for revision– Meaning of portfolio revision– Constraints in portfolio revision– Portfolio revision strategies: Formula plan– Constant rupee value plan– Constant ratio plan – Dollar Cost Averaging. Portfolio Evaluation: Need for evaluation– Evaluation perspective– Measuring portfolio return– Risk adjusted return: Sharpe ratio– Treynor ratio– Jensens differential return– Fama decomposition of total return– Market timing and Security selection– Treynor & Mazuy Model and Hendrickson & Merton Model.

IBSC 4.3 RISK MANAGEMENT

Learning Objectives:

- To make the students to understand the basic concepts of risk management
- To make the students to understand the credit risk management process in financial institutions.
- To make the students to understand the market risk management techniques
- To make the students to understand the operational risk management techniques
- To make the students to understand the process of strategic planning techniques

Course Outcome:

The students will be able to

- Understand the basic concepts of risk management
- Evaluate the credit risk management process in financial institutions
- Apply the market risk management techniques
- Apply the operational risk management techniques
- Understand the process of strategic planning techniques

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit I: Introduction to risk management -Need for Risk Management in banks- Concept of risk -Types of risk-Role of Risk Management- basic Principles of Risk Management- Integrated Risk Management Structure-Board of Directors-Risk Management Committee- Asset-liability committee- Basel III recommendations. (10 Hrs)

Unit II: Credit Risk Management -Meaning of Credit risk management -Challenges in credit risk management-credit risk environment- credit risk strategy and Credit Policy- instruments of credit risk management- credit approving authority, prudential limits, risk rating, financial aspects-Risk pricing-Portfolio management-loan review mechanism- common credit problem – CRM Policy – objectives of Credit Risk Policy. (10 Hrs)

Unit III: Market Risk Management -concept of market risk- Components of Market risk - interest rate risk management- tools and techniques of managing interest rate risk –Gap

analysis, Duration analysis and Simulation analysis- Foreign exchange risk management- tools and techniques of managing forex risk- transaction exposure, translation exposure, economic exposure (10 Hrs)

Unit IV: Operational risk management – Need for operational risk management in banks - taxonomy of various categories of operational risk, identification and assessment of operational risk- operational risk management process- monitoring of operational risk- effective internal controls in mitigating operational risk. (10 Hrs)

Unit V: Strategy Setting-Introduction-strategic planning process-considerations in the development of strategy-strategy and the bank business model-objectives-typical elements of a bank's strategic plan.(8 Hrs)

IBSC 4.4 AUDITING AND ASSURANCE

Learning Objectives:

- To make the students to understand the basic concepts of auditing and assurance.
- To make the students to know the fraud detection process and compliance procedure
- To make the students to aware about the professional conduct and ethics in auditing
- To make the students to aware about the cost and tax audit process
- To make the students to aware the IRDA regulation regarding the auditing of banking and insurance companies.

Course Outcomes:

The students will be able to

CO1: Understand the basic concepts of auditing and assurance

CO2: Apply the fraud detection process and compliance procedure

CO3: Understand the professional conduct and ethics in auditing

CO4: Apply the cost and tax audit process

CO5: Apply the IRDA regulation while auditing the banking and insurance companies

Pedagogy: This course includes class lectures, assignments, practical exercises, group discussions, seminars, and applications with examples.

Unit 1: Introduction to Auditing and Assurance- Auditing and Assurance Standards Board- International Accounting Standards- Scope and functions of Auditing and Assurance Board- Procedure for issuing the Statements on Auditing Assurance Standards- Compliance with the Statement on Standard Auditing Practices-Basic principles governing an Audit- Integrity, Objectivity and independence- Confidentiality- Skills and Competence – Audit Evidence- Documentation-Accounting system and internal control- Audit conclusions and Reporting.

(10 Hrs)

Unit II: Fraud and Error: Responsibility for the Detection of Fraud and Error- Risk of Fraud and Error- Reporting responsibilities- Relationship between internal and external auditors- Evaluation of internal audit functions- Audit Reporting- Design of the Sample- Sample Size- Sampling Risk- Tests of Control- Expected Error- Tolerable Error- Analysis of error in the sample- Non-Compliance- Responsibility of Management- Responsibility of Auditor- Audit procedure to ensure compliance. Auditors report on financial statement- Audit report of a limited company.

(10 Hrs)

Unit III: Professional Conduct and Ethics: Professional Misconduct- Member in Practice- Fellows and Associates- Enquiry in to the charges of misconduct of members- Appeals against the order of the Council- Removal of a member's name from Register- Audit Committees- Peer review committee- Risk management and Internal Auditors (10 Hrs)

Unit IV: Cost Audit: Meaning- Objectives- Advantages of Cost Audit- Distinction between Cost Audit and Financial Audit- Management Audit: Objectives- Need for management Audit- Conduct of Management Audit- Scope of work and Duties of Management Auditor- Tax Audit: Compulsory Tax Audit- Section 44 AB- Qualification and Disqualification of a Tax Auditor- Persons Covered U/s 44AB- Appointment of Tax Auditor- Celing on Tax Audit- Tax Audit Report. (10 Hrs)

Unit V: Audit of Banking and Insurance Companies: Introduction- Types of institutions carrying Banking Business in India- Restrictions on Business- Scheduled Banks- Profit and Loss Account- Contingent Liabilities- Reconciliation of Inter Branch Balance- Accounting Ratios- Audit of Nationalised Banks- Appointment of Auditor- Audit Report, General Insurance Business: Code of Conduct-Controller- IRDA- Powers of the Central Government- Income Tax- Deposits- Separation of Accounts and Funds- Audit of Insurance Companies- Duties of an Auditor- Branch Audit. (8 Hrs)

IBSC 4.5GLOBAL FINANCIAL MARKET AND INSTITUTIONS

Learning Objectives:

- To make the students to understand the basic concepts of international financial institutions.
- To make the students to know the significance of IMF and World Bank
- To make the students to understand the basic concepts of ADB
- To make the students to understand the basic concepts of international organisations.
- To make the students to know the liquidity process of international financial institutions

Course Outcomes:

CO1: The students will be able to

CO2: Understand the basic concepts of international financial institutions.

CO3: Understand the concept of IMF and World Bank

CO4: Understand basic concepts of ADB

CO5: Analyse the concepts of international organisations

CO6: Apply liquidity process of international financial institutions

Pedagogy: This course includes Class lectures, Assignments, Practical exercises, Group Discussions, Seminars, and Applications with examples, Case Studies.

Unit I: International financial institutions-Evolution of international financial institutions–need- objective and formation. Role of international banking in Global business era-Risks in Internal Banking. (08hr)

Unit II: I.M.F. and World Bank - Management and organization of I.M.F., functions of IMF; advantages of international monetary fund & performance- organization structure. India and I.M.F., advantage to India. International liquidity and Special Drawing Rights. Facilities provided by IMF. WTO: objectives-membership of the World Bank. Capital of the World Bank. World Bank's lending procedure- loan out of its own fund, loans out of borrowed capital, and loans through bank's guarantees. Evaluation of working of the World Bank. Impact of World Bank on developing countries. (10 Hrs)

Unit IV: Asian Development Bank (ADB)- Functions of ADB-lending of funds, provision of technical assistance, other functions. Objectives of ADB, membership of the ADB; financial resources of the ADB- Ordinary Capital Resources (OCR), Special Fund Resources (SFR). Organization and management of ADB; Asian Development Bank and India.

Unit IV: International Organizations: W.T.O- origin of the WTO- GATT 1947,Uruguay Round of Multilateral Trade negotiations'; Objectives of WTO; Functions of the WTO; membership and institutional structure. Impact on developing countries with reference to financial services and intermediation. OECD, SAARC and- UNIDO- impact on financial institutions. (10hr)

Unit V: International Liquidity: International liquidity- adequacy of liquidity; proposal to solve the international liquidity- Triffen's proposal, Bernstein plan, Dollar devaluation, Rise in the price of gold. International Monetary Standards- Mono-metallism, Bimetallism, Paper currency standards. Note issue- Simple deposit system, partial deposit system, partial fiduciary issue system, fixed fiduciary issue system, proportion reserve system, and minimum reserve system. International Gold Standards. (10hr)
