1.4 Feedback System

1.4.1 Whether structured feedback received from all the stakeholders.

Students	Teachers	Employers	Alumni	Parents
Yes	Yes	Yes	Yes	Yes

1.4.2 How the feedback obtained is being analyzed and utilized for overall development of the Institution? (maximum 500 words)

The college has its own distinctive system for collection of the feedback. The institution has good rapport with alumni, parents, peers, employers and frequently seeks inputs and suggestions to improve curriculum, teaching, learning and evaluation and other infrastructural facility. Oral and informal feedback is also sought alongside the structured feedback system. The feedback is collected from all the stakeholders during the seminars and special occasions like college day and academic meets. The faculty and students interact with invitees, resource persons, peer groups and guests and note down their views on issues concerning syllabus, learning processes, infrastructural needs, and administrative strategies. Normally there is reference to the students' skills, competency and expected quality attributes. The stakeholders share their opinions with regard to the inclusion of components related to skills in the curriculum. The stakeholders emphasize that the training and teaching should focus on the enhancement of skill sets and competencies. The New Education Policy also envisages the integration of skill sets in education.

- The staffs discuss on the revision of syllabus in the departmental meetings based on the feedback obtained and finalize the components to be included in the syllabus. The same is discussed in the Core committee Meetings, Academic Council Meetings and Governing Body Meetings. Subsequently the concerned BoS undertakes the revision of syllabus. As a result there is an increase in the number of Value Added Courses, certificate courses, especially skill enhancement, projects and self learning components in the existing curriculum. The minutes of every Board of Studies reflect the decisions on the revision of syllabi and addition of inputs to ensure greater and higher skills and competency.

- In addition to the above the college has been practicing Mentorship, Regular Parent Teacher Meetings, Alumni Interactions, and Alumni Meets. In these meetings to the parents share their views and give suggestions to be incorporated in the syllabus. For example, in the last PTI meeting the parents suggested to have more assignments and practical components. Accordingly the BOS of every subject incorporated the skill and practical components to greater extent in hardcore courses and designed syllabus for many short term courses that focus on the self leaning modules.
- Similarly the honorable members in Governing Body suggested that at least 40 percent of the syllabus should be skill oriented. The departments have incorporated the relevant and skill oriented components in the syllabus.

CRITERION II -TEACHING-LEARNING AND EVALUATION

2.1 Student Enrolment and Profile

2.1. 1 Demand Ratio during the year

2.2 Catering to Student Diversity

2.2.1. Student - Full time teacher ratio (current year data)

Year	Number of students enrolled in the institution (UG)	Number of students enrolled in the institution (PG)	Number of full time teachers available in the institution teaching only UG courses	Number of full time teachers available in the institution teaching only PG courses	Number of teachers teaching both UG and PG courses
2019	2644	693	93	52	145

2.3 Teaching - Learning Process

2.3.1 Percentage of teachers using ICT for effective teaching with Learning Management Systems (LMS), E-learning resources etc. (current year data)

Number of teachers on roll	Number of teachers using ICT *(LMS, e-Resources)*	ICT tools and resources available	Number of ICT enabled classrooms	Number of smart classrooms	E-resources and techniques used

145	145	EERPMS Google meet	44	4	310 Recorded Lectures, PPT'S, Audio and Video, films are used

2.3.2 Students mentoring system available in the institution? Give details. (maximum 500 words)

System: Mentorship is one of the best practices of the college. This was initiated many years before. The system of mentoring in the college is deep rooted and the result of the same is reflected in excellent academic performance, participation of the students in all the activities. There exists a healthy and cordial relationship between students and faculty in the college. The institution has got no untoward incidents till date and this is a clear sign of the functioning of the mentorship. The Mentors plan in advance and focus on the academic and all round development of the mentees. The petty clashes between groups of students have been greatly reduced to zero. The success rates in terms of academic performance, and placements are pleasantly noteworthy on account of the kind of counseling, orientation and guidance the learners get in the institution.

Practice: As per the practice, a batch of 25 to 30 students is allotted to every faculty in the beginning of

the year. The monitoring committee undertakes the task of formation of batches of mentees, distribution of these batches and conduction of orientations to all the mentors in the beginning of the academic year. The mentors meet the mentees every week and listen to them and if any guidance is required give the same individually or in group.

- Personal counseling is also done to the needy. The slow learners, problematic learners, disadvantaged learners are identified and given not only counseling but also guidance to manage the academic challenges and excel.
- If anybody has serious personal issues he/she is referred to the Counseling centre. The specially trained staffs at the centre undertake counseling more professionally.
- The mentors focus on developing skills and competencies among mentees and maintain the Academic Progress Document.
- During the parent teacher interaction the academic performance of the students, their extracurricular activities and other issues regarding the all round development of the personality are discussed.
- The mentors meet the mentees frequently and the parents twice in a year for this purpose

The students' handbook, a comprehensive material on how to handle computers and equipments in laboratories are distributed to students in the beginning of the year.

The do's and don'ts are put up in the prominent corners of the college. The college calendar also has details about how to safeguard the college facilities. The sign boards at every important place in the campus guide the stakeholders about discipline, academic conduct. Also the examination pattern, admission procedures, placements strategies, institutional collaborations, mentoring processes, counseling services, participation in co curricular and extracurricular activities are mandated by various committees and departments. The exclusive committee on maintenance comprising of a full time maintenance officer and several support staff look after the maintenance of the infrastructural facilities, cleanliness, and the huge college garden. The committee arranges to place dustbins in every classroom/staffroom/office/ lab/library/ other centre/ verandas/other public corners. The separate dustbins for biodegradable and wet wastes and non biodegradable dry wastes help the maintenance staff to separate and dispose wastes.

The college has separate units such as a waste segregation unit, a napkin disposal unit, a waste disposal unit. The Panchayath ujire and the college jointly have taken up the project of waste disposal in a large scale in the surrounding areas. The review and inspection by the representative of the management gives a special attention for neat and tidy ambience in and around the campus. The green audit, infrastructural audit, administrative and academic audits help the committee to prepare the repair requirements-requirement for refurbishment of the laboratories and departments, renovations of the buildings,

procurement of maintenance equipments and submit for approval. The management quickly undertakes the needed steps to implement them. The college, being located in a rural place has to cater to the needs of the local people who do not have facilities and spaces for accessing internet of reading. Therefore the college library gives services from 8.30am to 9.00pm on working days and 9.00am to 4.00 pm on holidays and Sundays. Similarly the use of facilities like swimming pool, indoor stadium, college building, and college playground are not only maximized to the students but also extended for the public use. The regular surveys and students' appraisal of services especially about the functioning of the various centers and units help the management to attend the same and set it right immediately. The drafted and institutionalized professional ethics and code of conduct book provide the guidelines and policies with regard to the usage and safeguarding all the institutional facilities.

5.3.2 Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The college has given a different dimension to the Students' Council. In order to involve and train students in different skills and competencies, soon after the election for class monitors the Students Welfare committee interacts with the selected class monitors and guides them about the various Students Fora created for the all round development of the personality. The college has identified nearly 48 areas and for each there is one platform for the interested students. The ActiveFora of the college are: Writers, Readers, Legal and Awareness, Quiz, Communicative English, Cartoon and Painting, Photography and Media, True Education, Craft, Event Management and Debates Fora.

Department Associations: Sasya Sowrabha, Eco Club, Spatika, Commerce Campus, ITClub, Economic Association, Library Association, Rathna Deepa, SDM Culture, Gruha Jyothi, Media Club, Kannada Sangha, Sigma, Cadet, Spectra, Political Science Association, Cognito, Subhodini, Sankhya. The selected class monitors are given the responsibility of coordinating activities of one each Forum. A separate slot is created in the time table and weekly twice the members of various Fora meet and hold diverse activities. The involvement of the students in these Fora is extremely admirable. The Speakers Club, for instance holds activities to develop the public speaking skills and similarly the Forum for event management involves in the management of different college level or university level events.

The total result of such initiative is that 80 to 90 of students are involved in one or other creative activities. This has stopped the unnecessary intervention of politics in the students' council. Another significant initiative is to involve students' representatives in all statutory and functional committee activities. The students' welfare committee as soon as the election is over distributes the representatives to all the committees. Besides these activities, in every department there is the existence of subject associations. These subject associations are purely student centric and lot of activities are coordinated under these associations. So the planning, implementation of all co curricular and extracurricular activities is done by the active participation of the students.

5.4 Alumni Engagement

5.4.1 Whether the institution has registered Alumni Association? Yes/No, if yes give details (maximum 500 words):

5.4.2 No. of registered Alumni: 1500

5.4.3 Alumni contribution during the year (in Rupees): 28,150

5.4.4 Meetings/activities organized by Alumni Association :

Two meeting were held - date of meetings 6th Sept. 2019, 14th Jan 2020

CRITERION VI –GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 Institutional Vision and Leadership

6.1.1 Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Vision of the college is:

Empowerment through Competency Building with Ethical Foundation

The Mission of the College:

- Providing infrastructural facilities to meet the contemporary needs
- Inculcating the spirit of inquiry
- Adopting learner centered approach
- Empowering teaching, learning and evaluation through effective use of ICT
- Practicing fair and just methods of assessment and evaluation
- Enhancing growth opportunities for employability
- Sustaining transparency in institutional governance.

Review Mechanism: *Bottom Up Approach/Top Bottom* Approach: For Implementation of all institutional policies and projects a comprehensive Review Mechanism has been evolved in the college. The individual staff, the HOD's of departments and Chairpersons of the statutory and functional committees and Criteria Coordinators, Deans and the principal participates in the review of the activities. Meetings are held every month and one of the agenda is Review of Action Taken Report. The concerned staff will present the action taken report and the same is discussed elaborately and resolutions are recorded in the minutes.

Regularity of the meetings and Minutes Recording: The committee/Department maintains the minutes of every meeting. The regularity and participation of every member is ensured. The college has a system (MIS) to collect information about the meeting held and the issues discussed and carried out to ensure the smooth functioning of activities.

Statutory committee, Core Committee, IQAC, BOS, Academic Council and Governing Body

Meetings and the minutes: All issues related to routine as well as new initiatives are discussed, reviewed and recorded in the Minutes Book and communicated to all the faculty for implementation. The blend of bottom up and top bottom approaches in all functioning ensures the participation of all the stake holders in the management of the college activities.

Decentralization: The delegation of duties and powers to all members in the institution ensures proper

and smooth participation in governance and administration. The scientifically developed Organograph of the college reflects the smooth flow of ideas and implementation of institutional plans and vision. The highly respected institutional bonding is a testimony of the continuous vertical improvement of the institution

6.1.2 Does the institution have a Management Information System (MIS)?
Yes/No/Partial: Yes

6.2 Strategy Development and Deployment

6.2.1 Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

- **Curriculum Development**

The College initiates the up gradation and revision of the Syllabi of all disciplines every year. The academic policy of the college encourages the faculty to revise the syllabus every year and develop outcome based teaching methodology. Therefore learning outcomes of every course, every programme, and every programme specific subject have been comprehensively stated. The core curriculum is revised according to the changing requirements. The regular interactions with the industries, job markets and other stakeholders help the institution to pool the feedbacks and assess the relevance of the syllabus. Each Department undertakes to collect the feedback from all the stakeholders and discuss and include the relevant components in the syllabi. The BOS of every discipline is oriented to oversee the course content of core subjects, elective subjects, sequencing of units, reading material lists, question banks, assessment procedures, and the question paper patterns. The Statutory Bodies meet compulsorily on the specified date and take proper decisions for the effective implementation of all academic plans of the college.

- **Teaching and Learning**

One of the best practices of the institution is to provide the required number teaching hours every semester and ensure that all allotted hours are used by the faculty for teaching and learning. The weekly monitoring of the classes allotted and engaged provides feedback to all the departments to re schedule and plan to engage the required number of classes on other days. The calendar/schedule of the semester is prepared in the beginning of the year by the calendar committee and the core committee. The core committee guides the faculty to conduct regular classes as per the lesson plan. The faculty, besides preparing the lesson plans for every class, makes entries in the diary every hour and gets them scrutinized by the respective Heads and Deans. In the monthly meetings of the Heads of the departments, one of the agenda is to review of the work done for the month. The reviews, in the meetings help the faculty to re plan and compensate if any shortfalls found in the previous month. Moreover the final PBSA (Performance Based Self Appraisal) of every faculty ensures planned and

focused teaching by every faculty. The students' appraisal of the faculty is yet another strategy adopted to assess the performance of the faculty. The innovative practices of each faculty are pooled and brought out in the form of a handbook.

❖ **Examination and Evaluation**

A Separate Evaluation Section in the college arranges for the conduction of exams, evaluation, and the announcement of results. The Registrar for Evaluation as per the governing examination procedures prepares the schedule of examinations both internal and semester end exams. The core committee after deliberations on examination schedule (on the dates, exam time table and central evaluation dates) approves, publishes and circulates the same among the faculty for adhering to the schedule. The examination section interacts with each subject panel and initiates to prepare question papers, conduct exams, arrange for valuation of answer scripts etc. Besides these regular tasks, it proposed a few reforms and innovations.

1. The communication of the exam guidelines to the invigilators and the valuators before the commencement of the exams proved more successful in terms of punctuality, and regularity.
2. Computer generated question papers. The questions banks are stored in the computer and as and when exam is conducted question papers are generated automatically.
3. The initiative to appoint Flying Squad is yet another strategy of the exam section to prevent the malpractices. The exam section works further to make the exam system more foolproof and transparent.

❖ **Research and Development**

The research and development component of the college has been reviewed frequently to enhance research activities in the college. The suggestions given by the NAAC Peer team in the first cycle of accreditation, in fact helped the institution to focus more on research and development. The initiatives like Student Research Projects, support for publications of research papers, and registering for PhD, and submitting proposal for establishing a full-fledged research centre, starting of Incubation centre have been well accepted by the staff and students. The Research committee and the PhD guides in the college interact with faculty very often about the various research schemes of the Government and NGOs.

In the previous year the Biotech Department got two projects of Rs. 13,000,00 for research. The department of Biotechnology has an MoU with Polyclone Bioservices Private Limited (POLYCLONE) Bangalore for collaborative research. During the year 2019-2020 the college submitted 23 research project proposals under STRIDES and also applied for a Research Centre

affiliated to Mangalore University. The college publishes a peer reviewed UGC recognized Journal SHODHA, a multidisciplinary journal. The workshops and conferences on research methodology, funding agencies and ICT tools orient the young faculty to undertake research.

❖ **Library, ICT and Physical Infrastructure / Instrumentation**

The College Library has been a coveted place of learning for all the learners in the campus. It is housed in spacious building of total 1102 sq. meters area. It houses more than 1, 10,000 books. It has a separate section – Sri Ha. Ma. Na. Section with 28,158 books. The library provides unique 19 services besides providing 400 reading cubicles, working between 8.30am and 8.pm on all working days, and on weekend days from 8.30am to 4,00pm and on Sunday between 10.00am and 5.00pm. The college has adopted ICT in all activities. The College Administration and all other services and activities are Computerized and monitored by MIS. The system deployed for all academic and administrative management is EERPMS (Educational Enterprises Resource Planning and Management System). Library Management is Fully automated- It has Acquisition section, Circulation Section, Periodical Section and Technical Section; Purchase- In-warding, Issuing, Cataloguing, Circulating, complete list of library holdings; OPAC(Open Public Access Catalogue); Periodical Subscription- In warding , books arrival dates, list of arrival dates, subscriptions of journals and other magazines; Budgeting Options : Department wise- spent and remaining fund details; Library users attendance- calculation of the average, the best user -class wise, day wise, hour wise; Stock Verification and Processing.

❖ **Human Resource Management**

Human Resource Management deployed in the college helps to manage the human resource and ensures the work culture in the campus.

• For the proper resource management, the responsibility is stated as advisory, managerial and operative to all stakeholders like the principal, Registrars, Deans, HODs, Chairmen and support staff respectively. Accordingly committees are constituted for different purposes with defined objectives and outcomes.

• Frequent review meetings are arranged to oversee the activities and speed up the follow-up processes.

• HOD's and Committee chairmen submit compliance reports in every monthly Chairmen meeting.

• Timely and frequent reminders are sent through EERPMS/official whatsApp groups for the timely completion of the tasks assigned/planned

• Training for the newly recruited staff, frequent orientation programmes to all the staff are organized to make them abreast of the development in the respective areas.

• Performance Appraisal System is deployed for the evaluation by the management.

This helps the management in finding out whether the employee is fulfilling the duties to achieve the vision of the institution. It also helps to evaluate the employees and provide support system for higher level performance. For low performers developmental plans are designed.

❖ **Industry Interaction / Collaboration**

The HRD cell and many Departments invite the Industries and Companies for interaction and placements. The campus recruitments, the orientations and trainings on resume writing skills, career opportunities, application writing have been undertaken as focused duties of the HRD Cell and Departments. The Departments send students for internship to industries every vacation. The college has initiated to establish Finishing school for preparing students to professions. The departmental collaboration with companies have helped the institution prepare relevant syllabus and offer vocational programmes such as Digital Media and Film Making, Retail and Supply Chain Management, App. and Software Development

❖ **Admission of Students**

The institution has developed several strategies to improve the quality of admission process in view of providing a single window and quick service to admission seekers in the institution. The process has been made easy and hassle free. The simplified admission process helps the institute to build confidence and trust amongst students and parents. Following are the few strategies developed:

- Prospectus (containing a brief about the achievements, details of programmes, subject combinations offered, fee structure, documents to be produced and other things like dates of admission and payment of fees etc) is issued to the students along with the application on payment of nominal fee.
- Help Desk Service is offered to avoid confusion and to clarify the queries on programmes, courses, unique feature of college.
- A team of staff is deployed for the admission to give proper orientation about the entire admission process.
- Sign boards are fixed at several points to guide the students/parents to reach a particular section/required destination. • Rooms with all facilities are provided to the students to fill in the applications leisurely and cautiously and the candidates are assisted by the staff in filling up of the applications.
- Programme wise committees ease the entire process. The committee members in batches complete the formalities like verifying the documents, interviewing the students and allotting

them the particular programme with specified subjects.

- After the announcement of the merit list, students are informed over phone/email to Join on a particular date.
- The parents/Guardians are required to accompany the ward for their signature. Proper guidance/information regarding discipline, do's and don'ts, academic opportunities, curricular co curricular, extracurricular and dress code is given during admission.
- The installment schemes, online payment facility are available to students
- Online admission is also implemented. Students can apply online and make payment of necessary fees.
- The entire admission process is being monitored by the Deans.

7.1.5 Human Values and Professional Ethics

Code of conduct (handbooks) for various stakeholders

Title	Date of Publication	Follow up (maximum 100 words)
SDM College Professional Ethics Handbook	2019	For the proper resource management and qualitative output, the stated responsibilities as advisory, managerial and operating procedures are made available to all stakeholders such as the principal, registrars, deans, HODs, chairmen and support staff respectively. The Management Representative orients the staff in the beginning of the year. The frequent discussions in the core meetings and proper strategies for the

		implementation of the plans remind staff about the professional ethics. Accordingly committees are constituted for different purposes with defined objectives and outcomes. Frequent review meetings are arranged to oversee the activities and speed up the follow up processes. HOD's and Committee chairmen submit compliance reports in every monthly Chairmen meeting. Timely and frequent reminders are sent through EERPMS/official whatsApp groups for the timely completion of the tasks assigned/planned Training for the newly recruited staff, frequent orientation programmes to all the staff are organized to make them abreast of the development in the respective areas. Performance Appraisal System is deployed for the evaluation by the management. This helps the management in finding out whether the employee is fulfilling the duties to achieve the vision of the institution. It also helps to evaluate the employees and ensure the benefit of the support system for higher level performance.

7.1.7 Initiatives taken by the institution to make the campus eco-friendly (at least five)

The institution has undertaken initiatives in the campus to preserve the right bio diversity by way of retaining the natural plants and adding further the green cover as eco friendly measures. Some of the

significant measures are:

1. Providing green cover to over 40 of the campus
2. Recycled water is being used for the college garden
3. Rain water harvest has been undertaken widely
4. Greenery and Plants are retained and preserved in both the campuses of the college, and also in all compounds of the five hostels
5. Creepers and plants are grown on both sides of the roads in front of the college
6. Paperless administration Above 90% administrations is paperless.
7. Swacch Bharath Drive has been the focus of the college. Cleanliness in the campus and the Ujire city has been maintained
8. Use and promotion of cloth bags in the place of plastic bags
9. Use of energy saving lights LED bulbs are used to replace the tubes and bulbs solar lights in the campus hostels

7.2 Best Practices

7.2.1 – Describe at least two institutional best practices

Title of the Practice:

1. Social Responsibility initiative : The Wall of Goodwill

Context: In the context of modernised practices of life, the value systems seem to be losing their grounds for the individualistic gains and interests. The deterioration of the value systems affecting the environmental biodiversity is being experienced in the form of climate change, depletion of ozone layer, the catastrophic calamities, and the homogenised world with only homo-sapiens. The young generation today needs concerted orientation to such serious issues to develop social responsibilities. Moreover, the corporates, socially drawn institutions, public organisations are required to be more socially useful and contributors for the development the society. The Sdm institution with its commitment to its vision and motto gives great emphasis on the social development. The objective of this social responsibility initiative is to instil the students with interest to serve the immediate community and society at large. This initiative helps students to think and discuss the issues like water conservation, energy conservation, No food wastage, Civic sense, anti drug abuse, no plastic use and social service

Objectives of the Practice:

1. To create awareness among students and public about the need to protect the natural world
2. To inculcate social responsibility values among students

3. To provide opportunities to students to serve and strive for the development of their surrounding

4. To internalise these values through a series of community oriented programmes and projects.

5. To help the needy.

The Practice: The Practice comprises of display of visuals, banners, boards, placards to inform and educate the public and students on the water conservation, No Food Wastage, anti drug abuse, civic sense, energy conservation, Oath taking on no food wastage, water conservation and organising awareness programmes. The frequent meets and awareness programmes on Swachch Bharath, Environment protection, Nation building are a part of this initiative. The focus of this initiative is to hold as many as programmes, discussions, debates, lectures, street plays. Keeping the campus 'spic-and- span' is consistently maintained. The separate committee with the assistance of mentors undertakes the responsibility of planning and organising programmes inside the campus and in the neighbouring places.

As part of this socially useful initiative, a unique project was launched during 2019-20 academic year.

The initiative is **The Wall of Goodwill** (the essentials such as clothing from the donors are collected and kept in the shelf for the needy. The people who need the dresses can choose from them and take home for their use. Neither the donor nor the receiver never knows who gave and who collected them as the name of the project indicates that it is a wall of confidence). It is a socially useful and valuable project to help the needy. It was inaugurated on 23rd August 2019.

The timings and maintenance of **The Wall of Goodwill** is as follows: The SDM Sports Club under the leadership of Miss Sharada, PD arranges the display in the shelf three times a day(5.45-6.00am, 1.00-1.15pm, and 6.45-7.00pm). During the year 2019-20 4026 things like dresses, and essentials are collected and displayed in the shelf. There are many people around the institution who need better clothing and other basic necessities and the initiative has indeed helped such people.

Obstacles faced if any and strategies adopted to overcome them: The initiative although became widely accepted by all stakeholders, initially students and the people in the locality were a little hesitant to involve in such programmes. But the sustained efforts of the institution yielded in terms of participation by all. The students, staff and the locals fully support the initiative.

Impact of the Practice: The impact of such initiative in the campus is very much visible. The staff and the public generously bring the dresses and support the project. The students in the campus voluntarily undertake the responsibility of spreading message on such serious issues in public platforms. They also are very careful with things such as: the dresses collected to iron and display on the shelf with proper care. The sports students voluntarily spend much time to sort out the dress

materials in to men, women, unisex sections and display in the shelf.

Resource Required: The resource required for this initiative was not much. The infrastructure needed was a shelf and a banner. The maintenance is undertaken by the students voluntarily. Whatever resource required is met by the institution. The participation of all the stakeholders and sharing for the common cause is ensured through a series of meetings and interactions across the campus.

Title of the Practice:

2. Optimal Use Digital platform :

Context: Technological innovations have massively brought about big shifts in all fields of life including the education sector. The virtual modes of communications, businesses, enterprises, and online programmes and courses, counselling services, media have altered the perceptions of life. The virtual reality is gripping the educational institutions. It is in this context the institution has accepted new policies and approaches in all its functioning. The institution today is capable of using efficiently the ICT in every field of educational transactions. The paradigm shift in the institution reflects the institutional openness and timely adoption of the learner friendly technology.

Objectives of the Practice:

1. To maximise and fasten the administrative efficiency through easy mode of communications at all levels
2. To make use of the technology for creation and preservation of the learning materials for future references
3. To provide easy and student friendly services at learning places like library, offices and other centres
4. To enhance the effective and quick assessment process
5. To allow the virtual mode of teaching to supplement the predominant educational methodology
6. To upgrade technological facility

The Practice: During this year the institution has enhanced the use of technology in every field. The institution is extensively using the ICT for official communication, documentation, administration, preserving the learning resources like lectures, e resources in e repository. The exam section too has evolved better and easy modes of assessment, communication, generation of question papers, question bank repository, online exams etc. The EERPMS, the Management Integrated System of the college has been further modified with additional templates and provisions for data entry. The quick communication of the resolutions in the statutory committee meetings or other committees, record of

action Taken Reports, and additional provision for all the details of activities feature the MIS. The other useful tools developed during the year are: Digital attendance, Online CL application processing, Online admission process, Up gradation of EERPMS, - Students Portal, Marks cards generation, and documents of achievements stored in DigiLocker, e magazine. e wall magazine, Digital Notice board, check in check out at the library, Google classroom/meet Gsuite)

Obstacles faced if any and strategies adopted to overcome them: One of the difficulties is to customise the templates and formats to the college specific requirements in EERPMS developed for all institutions initially by the Management. The details of programmes required for all purposes have been listed and accordingly the templates were modified and customised. The elaborate and frequent meetings at various levels have led the institution to customise the MIS to suit the requirements.

Another important requirement was the recording unit/studio. The two separate studios were established and as per the schedule the faculty recorded many lectures of 10 minutes. These lectures after the scrutiny by the Subject experts are uploaded to the YouTube for the benefit of the students

The service providers had issues with the frequent interrupted internet access to the customers. The problem was reduced to some extent after a series of representations from the institution. The enhanced Bandwidth has enabled the internet users to conduct online classes without much disturbances

Impact of the Practice: The faculty and the departments/ committees are aware of the MIS and every fifteen days make all the entries of activities and achievements in EERPMS. The reading materials, links to video/audio contents, the texts and other useful learning sources are uploaded to the EERPMS. More than 100 e lectures were recorded and uploaded to you tube during this year

Resource Required:

The monetary assistance required for this purpose has been met by the institution.

7.3 Institutional Distinctiveness

7.3.1 Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrus Provide the weblink of the institution in not more than 500 words

The Institution was established in 1966 by Late Sri D Rathnavarma Heggade, the then Dharmadhikari of Sri Kshethra Dharmasthla. The institution has scaled higher levels under the present visionary leader Dr. D Veerendra Heggade, who is the Dharmadhikari and the President of The SDME Society. Being situated in rural area, the distinct quality of the Institution is its focus on preparing the youths for the employments either in the public or private sector. One of the objectives of the institution is to cater to the needs of the rural youths. As the vision of the institution is Empowerment through

Competency Building with Ethical Foundation, the institution focuses on the skills and competencies to be imparted to learners with the required professional ethics. The curriculum is designed with more skill components. The Departments and the respective BOS's review the syllabus every year and update in view of the present requirement. Besides, the student centric activities such as Presentations, class quizzes, group discussions, class seminars, projects and practical etc not only empower the learners but also give them the exposure required. To enhance the students' activities last year the college ideally converted the Class Rooms as Discussion Rooms and in fact it was a boost to enable students to participate in self learning. All efforts are made to provide learners with learning materials/lectures of the staff by uploading them in EERPMS, an inhouse developed Management Information and Administration System. This MIAS provides links to Lesson plans with videos, and Google class rooms for the students. In order to make the lectures available to the absentees and slow learners, college has initiated SDM Learning Resource Programme. Under this lectures are recorded and made available to students to watch at any time. An exclusive studio is established for the purpose of recording lectures. For the promotion of reading habits of students, the college has introduced Samyakjnana Programme. As per the practice the learners are required to complete 40 library hours in each semester. For the promotion research culture among the students, Students Research Projects are introduced. The college has been offering the interdisciplinary certificate courses to give an additional skill in the subject of students' interest. As a part of the institution's commitment to maintain a healthy academic environment the surrounding is kept neat and tidy. The green audit is being conducted every year. The college has taken up several measures to make the campus clean, green and oxygen rich. Many ecosensitive actions are initiated, which have made the campus highly ecosensitive. Few major eco friendly initiatives are:

• All internal communications are done through emails, including financial approvals.

• Maintenance of single office copy for multiple mails.

• Reuse of envelopes for internal use

• Online examinations, a unique initiative of the institution. By conducting every online exam college saves one oak tree of sixty feet height.

• Communication to students is done through website, email and electronic display board and

• Google class rooms

• Display of notices on digital notice boards
