Edition: 5

Principal's Desk

As we are nearing the fag end of the academic year, it is imperative on the part of students to go for a quick recap of their College days.

For a student, College life is the beginning of adulthood. In our college life, along with academics, we indulge ourselves in recreational activities. Students also participate in various group activities that will help them learn about themselves and their peers. After graduation, students are prepared to face the real world. In today's scenario, the job market is quite challenging, but still, you can make your College life an exciting time in your life.

Every Individual or student is not lucky to get the chance to experience College life. Due to various reasons, they are not able to attend College. Some might have financial problems, while others have responsibilities to fulfil. College life always remains memorable for all of us. The ones who have had a College life always wish to turn back time to live it all once again.

We all learn the most significant lessons of our life during our College times. In our College life, we develop brotherhood, friendship and a spirit of unity. We also get a sense of duty and responsibility and learn good manners. One crucial lesson students should learn in college is not to misuse liberty.

A student's future is determined by utilising their college time productively to become successful in life. Students should not ignore their studies at their college because it can turn their dreams into reality. Hence students should pay due attention to academics to strive for excellence.

Dr B A Kumar Hegde,

Principal

Parent Teacher Meeting and the Meeting of the Parent Teacher Association

'Parents' role in the overall development of the students is unparalleled', opined Dr B A Kumar Hegde, Principal of the college. He was addressing the Parent-Teacher Association meeting held on 9 June 2023. Sri Sudarshan Rao Gajanthodi, Parent representative was the chief guest of the function. Speaking on the occasion, he appreciated the college's initiative to provide a conducive environment for the studies, state-of-the-art facilities and infrastructure, and constant communication with the stakeholders in academic endeavours. In an interactive session, the parents clarified their doubts regarding The New Educational Policy - 2020 and its impact on the students. Dr Shridhara Bhat, Head Department of Sanskrit, welcomed the gathering, and Sri Shailesh Kumar, Head, Department of Computer Science, mastered the ceremony.

Day Celebrations
